سری دوم تمرین‌های طراحی الگوریتم‌ها

۱. فرض کنید یک درخت دودویی کامل با ارتفاع h و $n=2h$ گره برگ داریم. هر گره درخت نیز دارای یک مقدار می باشد. تعریف می‌کنیم:

- اگر گره x گره برگ باشد، $A(x)$ برابر است با مجموعه شامل x و تمام اجداد x تا ریشه درخت (تا ریشه درخت)
- اگر x و y دو گره برگ مجزا باشند، $A(x,y)$ برابر است با اجتماع $A(x)$ و $A(y)$ یعنی $A(x,y) = A(x) \cup A(y)$ و $F(x,y)$ را حاصل جمع عناصر $A(x,y)$ تعریف می‌کنیم

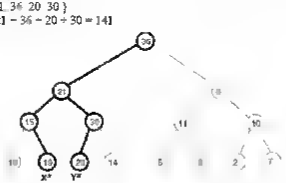
الف) الگوریتمی ارائه کنید (با استفاده از بسته کد یا توصیف فارسی) که برای یک درخت دودویی کامل، دو گره برگ x^*,y^* را پیدا کند، طوریکه مقدار $F(x^*, y^*)$ ماکزیمم گردد و سپس مقدار $F(x^*, y^*)$ را بعنوان خروجی بازگرداند.

ب) مرتبه زمانی الگوریتم ارائه شده را تعیین کنید.

<u>توجه: الگوریتم ارائه شده باید مبتنی بر روش تقسیم و حل باشد.</u>

مثال برای درخت زیر گره های X^* و Y^* مشخص شده‌اند و خروجی الگوریتم برابر ۱۴۱ است. زیرا

$A(x^*) = \{ 19, 15, 21, 36 \}$
$A(y^*) = \{ 20, 30, 21, 36 \}$
$A(x^*, y^*) = \{ 19, 15, 21, 36, 20, 30 \}$
$F(x^*, y^*) = 19 + 15 + 21 - 36 - 20 + 30 = 141$



۲. (تحلیل الگوریتم مرتب‌سازی ادغامی) الگوریتمی بنویسید که برای مرتب کردن یک آرایه n عنصری، ابتدا آن را به ۲ قسمت با طول $n/3$ عنصر تقسیم کرده، سپس هر قسمت را به همین روش مرتب کرده و سپس ۲ نیمه مرتب شده را با هم ادغام کند. با تحلیل پیچیدگی زمانی الگوریتم، مرتبه زمانی آن را مشخص کنید.

Gyro Meat with Tzatziki Sauce

Recipe courtesy Alice Brown, 2005

Prep Time:	20 min	Level:	Serves
Inactive Prep Time	2 hr 0 min	Intermediate	6 to 8 servings
Cook Time:	1 hr 10 min		

Ingredients

1 onion, finely chopped or shredded
2 pounds ground lamb
1 tablespoon finely minced garlic
1 tablespoon dried marjoram
1 tablespoon dried ground rosemary
2 teaspoons kosher salt
1/2 teaspoon freshly ground black pepper
Tzatziki Sauce recipe follows

Directions

Process the onion in a food processor for 10 to 15 seconds and turn out into the center of a tea towel. Gather up the ends of the towel and squeeze until almost all of the juice is removed. Discard juice

Return the onion to the food processor and add the lamb, garlic, marjoram, rosemary, salt, and pepper and process until it is a fine paste, approximately 1 minute. Stop the processor as needed to scrape down sides of bowl.

To cook in the oven as a meatloaf, shape as follows:

Preheat the oven to 300 degrees F.

Place the mixture into a loaf pan, making sure to press into the sides of the pan. Place the loaf pan into a water bath and bake for 60 to 70 minutes or until the mixture reaches 165 to 170 degrees F. Remove from the oven and drain off any fat. Place the loaf pan on a cooling rack and place a brick wrapped in aluminum foil directly on the surface of the meat and allow to sit for 15 to 20 minutes, until the internal temperature reaches 175 degrees F. Slice and serve on pita bread with tzatziki sauce, chopped onion, tomatoes, and feta cheese.

To cook on a rotisserie, shaped as follows:

Form the meat mixture into a loaf shape and place on top of 2 overlapping pieces of plastic wrap that are at least 18 inches long. Roll the mixture in the plastic wrap tightly, making sure to remove any air pockets. Once the meat is completely rolled in the wrap, twist the ends of the plastic wrap until the surface of the wrap is tight. Store in the refrigerator for at least 2 hours or up to overnight, to allow the mixture to firm up.

Preheat the grill to high.

Place the meat onto the rotisserie skewer. Place a double-thick piece of aluminum foil lightly into a tray directly under the meat to catch any drippings. Cook on high for 15 minutes. Decrease the heat to medium and rotisserie to cook for another 30 to 35 minutes or until the internal temperature of the meat reaches 165 degrees F. Turn off the heat and allow to continue to spin for another 10 to 15 minutes or until the internal temperature reaches 175 degrees. Slice and serve on pita bread with tzatziki sauce, chopped onion, tomatoes, and feta cheese.

Tzatziki Sauce

16 ounces plain yogurt
1 medium cucumber, grated, seeded, and finely chopped
Pinch kosher salt
4 cloves garlic, finely crushed
1 tablespoon olive oil
2 teaspoons red wine vinegar
5 to 6 mint leaves, finely minced

Place the yogurt in a tea towel, gather up the edges, suspend over a bowl, and drain for 2 hours in the refrigerator.

Place the chopped cucumber in a tea towel and squeeze to remove the liquid; discard liquid. In a medium mixing bowl, combine the drained yogurt, cucumber, salt, garlic, olive oil, vinegar, and mint. Serve as a sauce for gyros. Store in the refrigerator in an airtight container for up to a week.

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both

To test the send functionality of your fax machine, send a one-page fax to 1-510-545-0990 (a number in Northern California.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero: this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

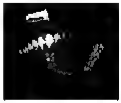
Laster Orthodontics

Retainers

Congratulations! You have completed the braces phase of your orthodontic treatment. The key to keeping your teeth straight and your bite fitting together properly is proper retainer wear.



Clear invisible style retainers

Why do I need to wear retainers?

With your help we have been able to move your teeth and adjust your bite using braces to correct your orthodontic problems. The best way to ensure that teeth remain straight and bite together correctly is to wear your retainers properly. Once the braces are removed there can be a tendency for the teeth to wantsite shift. Retainers apply pressures to the teeth that prevent them from moving.

When should I wear my retainers?

Retainers should not be worn when eating, swimming, or brushing. Otherwise, you should wear the retainer as the doctor recommends. To hold teeth in place generally 8-10 hours per day or night is suff cient. When we are trying to move your teeth using retainers you should wear them as much as you can for best results.

White vinegar for cleaning

How do I clean my retainers?

Retainers can be easily cleaned using cold water and a toothbrush. Never use hot water as that can cause the retainer to distort. If you want to soak your retainer to remove buildup, cold water with a teaspoon of white vinegar works well. You can also use retainer solutions from the drug store, but be sure to use a clear solution so as to not discolor your retainer.

Beware of Pets!

How long will I need to wear my retainers?

Teeth are liable to shift at any time even many years after your braces have been removed. For this reason we will continue to check you during your retention phase of treatment. When teeth have been stable and the braces have been off for a long time then sometimes we can get to a less frequent wear schedule with the retainers, but it is likely that we will encourage you to continue wearing them for many years.

Hawley Style Retainers

Always!

Bring your retainers when you have an appointment. It is important for the doctor to check the fit of the appliance and to be able to adjust it if necessary.

Call if you have any questions or concerns.

NO HOT WATER!

Lost or Broken?

Let us know as soon as possible. **Yes, there is a charge to replace retainers that are lost, broken, or no longer fitting.** Not replacing them could result in teeth shifting to the point where further orthodontic treatment is needed. Let us know as soon as possible. Watch out for pets, keep your retainers away from them.

We may disclose your information as follows: In relevant legal proceedings; to law enforcement when the USPS or requesting agency becomes aware of a violation of law; to a congressional office at your request; to entities or individuals under contract with USPS; to entities authorized to perform audits; to labor organizations as required by law; to federal, state, local, or foreign government agencies regarding personnel matters; to the Equal Employment Opportunity Commission; and to the Merit Systems Protection Board or Office of Special Counsel. For more information regarding our privacy policy, visit us at usps.com.

This constitutes my consent and authorization to the disclosure or furnishing of any relevant and necessary information or records to any duly authorized employment official or to a contractor acting on behalf of the USPS by any person, corporation, agency, or association concerning my character, employment, criminal records, driving records, or military service as may be relevant and necessary for a determination of my suitability for employment with the USPS.

This authorization is given with full knowledge and understanding that the USPS will take measures to protect the aforementioned information against unauthorized disclosure to any parties not having a legitimate need for it in the discharge of official business of the United States, or its agencies and instrumentalities.

I hereby RELEASE the aforementioned persons, corporations, agencies, associations and their employees, agents, and representatives from any and all liability for damages resulting from a decision by the USPS not to employ me on account of compliance, or any attempts at compliance with this authorization, except for any damages resulting from knowingly providing false or misleading information or records about me.

A copy of this authorization shall be as effective and valid as the original. This authorization shall be valid for 12 months from the date it is signed.

IF PERSONAL COMPUTERS ARE FOR EVERYBODY, HOW COME THEY'RE PRICED FOR NOBODY?

A personal computer is supposed to be a computer for persons. Not just wealthy persons. Or whiz-kid persons. Or professional persons.

But person persons.

In other words, all the persons who can't afford Apples, IBM and Radio Shack systems (we have forgotten about including most Texas).

But that's okay. Because now you can get a high-powered home computer without taking out a second mortgage on your home.

It's the Commodore 64. We're not talking about a low-priced computer that can barely retain a phone number.

We're talking about a memory of 64K. Which means it can perform tasks most other home computers can't. Including some of these that cost a lot more. (Take another look at the three computers above.)

By itself, the Commodore 64 is all the computer you'll ever need. Yet, if you do want to expand its capabilities some day, you can do so by adding a full complement of Commodore peripherals. Such as disk drives. Modems. And printers.

You can also play terrific games on the Commodore 64. Many of which will be far more challenging than those you could ever play on a game machine alone.

And as great as all this sounds, what's even greater-sounding is the price. It's hundreds of dollars less than that of our nearest competitor.

So while other companies are trying to take advantage of the computer revolution, it seems to us they're really taking advantage of something else. Their customers.

From Simeon Martin Hickman- PARKINSON Patient

Re: "Fall "incidents Report

I am scheduled for a regular appointment on Oct 10, however
Early this Year yan requested that I let you know if I experianced any falls
This is my first report

Early last week I experienced two separate.." near miss" falls in the sense that each was scary but I avoided any real hurt by grabbing adjacent furniture

Then last week Sept 2/1, my feet took off in accelarating speed for about 15feet untill I hit a vertical wall and fell to the ground After about 5 minute s I was able to get to my feet, bloody but ..no major damage

Since the latter incident nothing to report.. Except I bought and now use a cane and do every thing carefully and with no abrupt moves.. Also feel quite without strength

On a different subject

I tried the " memory pills" that Dr Cragan had prescribed and the coincident side effects experienced were even more unpleasant than with the patch system we tried the previous month.. Am not taking either now

"In Too Deep"

The faster we're falling,
We're stopping and stalling
We're running in circles again
Just as things we're looking up
You said it wasn't good enough
But still we're trying one more time

Maybe we're just trying too hard.
When really it's closer than it is too far

Cause I'm in too deep and I'm trying to keep
Up above in my head, instead of going under
Cause I m in too deep and I m trying to keep
Up above in my head. instead of going under
Instead of going under

Seems like each time
I'm with you I lose my mind,
Because I'm bending over backwards to relate
It s one thing to complain
But when you're driving me insane
Well then I think it's time that we took a break.

Maybe we're just trying too hard.
When really it s closer than it is too far

Cause I'm in too deep and I'm trying to keep
Up above in my head instead of going under
Cause I m in too deep and I m trying to keep
Up above in my head, instead of going under
Instead of going under
Instead of going under
Instead of going under

I can't sit back and wonder why..
It took so long for this to die.
And I hate it when you fake it
You can t hide it you might as well embrace it.
So believe me it's not easy
It seems that something s telling me,

I'm in too deep and I'm trying to keep
Up above in my head, instead of going under
Cause I'm in too deep and I m trying to keep
Up above in my head instead of going under

ADULT DAY HEALTH CARE (ADHC) SERVICES – AGENCY DIRECTED (AD) ONLY Service Definition

Adult day health care (ADHC) means long-term maintenance or supportive services offered by a DMAS-enrolled community-based day care program licensed by the Virginia Department of Social Services (DSS) as an Adult Day Care center. ADHC provides a variety of health, therapeutic, and social services designed to meet the specialized needs of those waiver individuals who are elderly or who have a disability and who are at risk of placement in a nursing facility. The services offered shall be required by the waiver individual in order to permit the individual to remain in his home rather than entering a nursing facility. ADHC may be offered either as the sole home and community-based care service or in conjunction with personal care (either agency- or consumer directed), respite care (either agency- or consumer directed), or PERS. A multi-disciplinary approach to developing, implementing, and evaluating each waiver individual's POC shall be essential to quality ADHC services. Services. The services offered by the ADHC Center must be designed to meet the needs of the individual. The range of services provided by the ADHC Center to each individual may vary to some degree and there must be a minimum range of services available to every individual attending ADHC. Through the EDCD waiver to include nursing, rehabilitation services, coordination, nutrition, transportation, orientation, social services, recreation, and socialization services. Adult day health care (ADHC) services. ADHC services shall only be offered to waiver individuals who have approved long-term care program and for whom ADHC services shall be an appropriate and medically necessary alternative to institutional care.

The ADHC Center must provide planned recreational and social activities aimed to the needs of the individuals and designed to encourage physical exercise, prevent deterioration, and stimulate social interaction. A multidisciplinary approach to developing, implementing, and evaluating each individual's Plan of Care is essential to quality ADHC services.

If our client who receives only PCA service through PC/RC would like to go to ADHC, we can make the change of plan of care by our RN. Then the client could attend CarePeople Adult Day Care center right away. The client could go to the ADCC from Monday to Friday, usually from 8am to 2pm for 5 hours and he/she could have PCA service. If the client needs PCA's assistance in this case. The PC/RC service hours will be after ADCC hours. ADCC will provide transportation and meals (breakfast and lunch) during ADCC hours. If the client could not attend the ADCC due to physical frailness and high risk for falls, the client could receive only PCA service for a longer hours by being changed plan of care by our RNs.

We have been working hard to make ONE-STOP Home care and Rehabilitation program. Once we open CarePeople Adult Day Care Center, we finally provide PCA service/ ADCC/ Skilled nursing, Hospice services by our own staffs, which makes much better health management and provides effective Case Management for our clients and their families.

We are going through inspection and licensing process at this time in order to open CarePeople ADCC.
Please read about ADCC program and call our staffs for questions.
If you wish to work for the ADCC, please send us Resume.

Thank you

Adobe Acrobat PDF Files

Adobe® Portable Document Format (PDF) is a universal file format that preserves all of the fonts, formatting, colours and graphics of any source document, regardless of the application and platform used to create it.

Adobe PDF is an ideal format for electronic document distribution as it overcomes the problems commonly encountered with electronic file sharing.

- *Anyone, anywhere* can open a PDF file. All you need is the free Adobe Acrobat Reader. Recipients of other file formats sometimes can't open files because they don't have the applications used to create the documents.
- PDF files *always print correctly* on any printing device.
- PDF files always display *exactly* as created, regardless of fonts, software, and operating system fonts, and graphics are not lost due to platform, software, and version incompatibilities.
- The free Acrobat Reader is easy to download and can be freely distributed by anyone.
- Compact PDF files are smaller than their source files and download a page at a time for fast display on the Web.

The following sentences test correct and effective expression. Part of each sentence or the entire sentence is underlined. Beneath each sentence are five ways of phrasing the underlined material. Choice A repeats the original; the other four are different. If you think the original is better than any of the alternatives, choose A; if not, choose one of the others. In making your selection, follow the requirements of standard written English.

GRADING RUBRIC

An "A" paper:
-has a strong, clear thesis
-has a thesis that is grounded in evidence from the text
-has ideas that are developed and refined as the essay progresses, i.e., the writer does not simply state the same idea over and over again
-displays the writers clear understanding of the literary terms used (style, diction, etc)
-has a logical structure and flows from one paragraph to the next
-displays engaging writing and demonstrates the writer s interest in the topic
-has few if any grammatical or technical errors

A "B" paper:
-has a clear but predictable thesis
-shows an attempt by the writer to support the thesis with evidence, but the evidence may not be carefully analyzed
shows the writer has attempted to develop his or her ideas
shows that the writer may not completely understand the literary terms used
-shows some sense of logical order to the paragraphs, but transitions may not be smooth
-displays mostly clear and engaging writing
-has a few grammatical and technical errors

A "C" paper:
has a weak, unfocused thesis
-does not use the text to support the thesis
has ideas that are weakly developed, the writer has a tendency to repeat the same idea over and over
-has disorganized paragraphs; the writer has shown little thought to how the paper will read
has frequent minor and major errors, making the paper difficult to read

A "D" paper:
-shows a major misunderstanding of the prompt or text
-has major errors in the writing

A Zero:
-turned in the paper late without advanced permission
-did not turn in a paper at all

How Christian Were the Founders?

By RUSSELL SHORTO
Published: February 11, 2010
LAST MONTH, A WEEK before the Senate seat of the liberal icon Edward M. Kennedy fell into Republican hands, his legacy suffered another blow that was perhaps just as damaging, if less noticed. It happened during what has become an annual spectacle in the culture wars. Over two days, more than a hundred people — Christians, Jews, housewives, naval officers, professors, people outfitted in everything from business suits to military fatigues to turbans to baseball caps — streamed through the halls of the William B. Travis Building in Austin, Tex., waiting for a chance to stand before the semicircle of 15 high-backed chairs whose occupants made up the Texas State Board of Education. Each petitioner had three minutes to say his or her piece.
"Please keep César Chávez" was the message of an elderly Hispanic man with a floppy gray mustache.
"Sikhism is the fifth largest religion in the world and should be included in the curriculum," a woman declared.
Following the appeals from the public, the members of what is the most influential state board of education in the country — and one of the most politically conservative, submitted their own proposed changes to the new social-studies curriculum guidelines, whose adoption was the subject of all the attention — guidelines that will affect students around the country, from kindergarten to 12th grade, for the next 10 years. Gail Lowe — who publishes a twice-a-week newspaper when she is not grappling with divisive education issues — is the official chairwoman, but the meeting was dominated by another member: Don McLeroy, a small, vigorous man with a shiny pate and bristling mustache, proposed amendment after amendment on social issues to the document that teams of professional educators had drawn up over 12 months...in what would have to be described as a single-handed display of archconservative political strong-arming.
McLeroy moved that Margaret Sanger, the birth-control pioneer, be included because she "and her followers promoted eugenics," that language he inserted about Ronald Reagan's "leadership in restoring national confidence" following Jimmy Carter's presidency and that students be instructed to "describe the causes and key organizations and individuals of the conservative resurgence of the 1980s and 1990s, including Phyllis Schlafly, the Contract With America, the Heritage Foundation, the Moral Majority and the National Rifle Association." The rejection of partisan politics into education went so far that at one point another Republican board member burst out in seemingly embarrassed exasperation, "Guys, you're rewriting history now!"
Nevertheless, most of McLeroy's proposed amendments passed by a show of hands.
Finally, the board considered an amendment to require students to evaluate the contributions of significant Americans. The names proposed included Thurgood Marshall, Billy Graham, Newt Gingrich, William F. Buckley Jr., Hillary Rodham Clinton and Edward Kennedy. All passed muster except Kennedy, who was voted down.
This is how history is made — or rather, how the hue and cry of the present and near past gets lodged into the long-term cultural memory or else is allowed to quietly fade into an inaudible whisper. Public education has always been a battleground between cultural forces, one reason that Texas school-board members find themselves at the very center of the battlefield is, not surprisingly, money. The state's $22 billion education fund is among the largest educational

Positive and negative controls were run and tracked in an appropriate manner. The BRAF Mutation assay is a quantitative Real-Time PCR based mutant enrichment assay with selective blocking of BRAF wild-type amplification. The amplification products are purified and subject to sequencing to confirm the presence of the BRAF mutation. The assay has a sensitivity of 0.99% mutant population.

1.2. Frugal install

Frugal is the typical install, too much id for Tiny Core. That is it is not a traditional hard drive installation which we call "scatter mode" because all the files are scattered all about the disk. With frugal, you basically have the system in two files vmlinuz and core.gz, whose location is specified by the boot loader.

Any user files and extensions are maintained outside the base OS

{USA Only}

Who is protected?

- This limited warranty ("warranty") is given only to the original end-user/retail purchaser (referred to in this warranty as "Original Purchaser") of the accompanying product, consumables and accessories (collectively referred to in this warranty as "this Product").
- If you purchased a product from someone other than an authorized Brother reseller in the United States or if the product was never declared first sold in the United States, or reimported product by someone other than Brother, prior to your purchase you are not the Original Purchaser and this product is not subject to or covered by this warranty.

We will be responsible for:

- The Product includes a Machine and Consumable and Accessory Items. Consumable and Accessory Items will only be covered under this warranty, (the Machine and the accompanying Consumable and Accessory Items will be free from defects in materials and workmanship when used under normal conditions.
- This warranty always only to protect purchasers and kept in the United States. For personal purchased in but used outside the United States this warranty covers only warranty service within the United States (and does not include shipping outside the United States).

What is the length of the Warranty Periods:

- Machines one year from the original purchase date.
- Accompanying Consumable and Accessory Items: 90 days from the original purchase date or the rated % of unacceptable white/colour before End.

What is NOT covered:

This warranty does not cover:

(1) Physical Damage to this Product, Damages kept by product, malfunction, improper or abnormal use, misuse, neglect, or accident (including but not limited to transporting this Product without the proper preparation and or packaging);

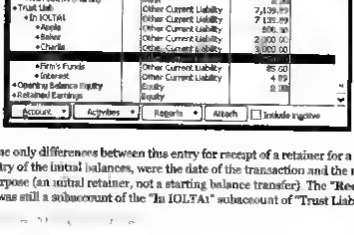
Pressing "**Save and Close**" returns to the "**Make Deposits**" window. There, fill in *both* "**Memo**" fields with the purpose of the transaction. Then enter the amount.

Press the "**Save and Close**" button (not shown) and the Chart of Accounts is updated.



The only differences between this entry for receipt of a retainer for a new client, and the entry of the initial balances, were the date of the transaction and the memo indicating the purpose (an initial retainer, not a starting balance transfer). The "**Received From**" entry was still a subaccount of the "In IOLTA1" subaccount of "Trust Liability."

On July 7, you receive a settlement or payment of an award in Apple a matter, of $18,000. Highlight the "IOLTA1" banking trust account; click on the "**Activities**" button and then "**Make Deposits**." If the banking account is not already chosen in the "**Deposit To**" window, use the drop-down menu to select it.

Enter the date, and make an entry in the "**Memo**" field beyond just the default (and redundant) notation "Deposit" – remember that the rules require not just the date, amount, and client identity, but also the purpose of the deposit. An entry like "Apple recovery in hotel matter" is thus better. You could leave the "**Received From**" column of the ledger

Test Thus they conclude that tonal memory ability is related to success in foreign language learning The implication of this study is that the development of tonal ability in children a common objective of school music programs, has a transfer effect to foreign language learning

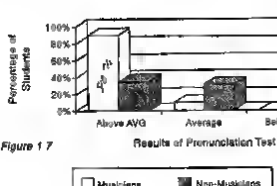

Figure 1 7

Study #5

Instrumental music study and musical aptitude appear to positively affect a student's ability to learn a foreign language Elemo (1961) compared the results of the Conn Musical Aptitude Test and years of instrumental study with student scores of the Foreign Language Pronunciation Test (Spanish Version) and found some interesting results.

The students he worked with were 177 sixth through eighth grade students who were studying Spanish After comparing the student scores on the two tests he concludes " ...that there appears to be a direct relationship between musical aptitude and foreign language pronunciation skill" (p. 169). He goes on to state that "...of the eighth grade students who played an instrument for more than one year 90% scored above average in the pronunciation test while only 10% scored a rating of average Not one scored below average" (p. 170) Lastly he found that musical aptitude apparently became even more important to success as the difficulty of foreign language instruction increases (See Figure 1 7)

This study seems to offer support that both musical aptitude and instrumental music experience will greatly aid a student's ability to learn to pronounce words in a second language

Study #6

There were several studies conducted in the 1930's and 1940's to determine whether musical skills were related to a student's ability to learn a second language Many of these are unavailable or were not conducted with the same standards we expect today. Therefore we have chosen to exclude these from this book. However, these studies were reviewed in an article by Blickenstaff (1963)

After a careful critique of each study Blickenstaff concludes that based upon these studies he found "...a student's talent to discriminate pitch does appear to have some positive effect on his ability to learn a foreign language at least on the high school and college level."

Summary

From these studies it appears that a student's ability to discriminate different pitches has a positive effect of the learning of a foreign language Further, a developed tonal memory, singing skills and instrumental music instruction all appear to relate positively to a student's ability to succeed in learning a second language.

The development of pitch discrimination tonal memory and singing skills are common objectives and outcomes of elementary general music instruction It appears that these fundamental music skills, once developed also transfer to the learning of a foreign language It further appears that learning to play a musical instrument will also increase the probability of success in learning a second language

Summary of Chapter One

There are countless articles in the literature which speculate that learning musical skill should transfer to enhancing reading and language skills. The fact that reading music 1) is a left to right procedure, 2) requires the individual to continue without stops and starts and 3) requires sustained concentration to a written symbol has not gone unnoticed by many writers

Testing Outgoing faxing

2075

(Application instructions continued.)

Box 7 — Choice of Party
In most States, you must register with a party if you want to take part in that party's primary election, caucus, or convention. To find out if your State requires this, see item 7 in the instructions under your State.

If you want to register with a party, print in the box the full name of the party of your choice.
If you do not want to register with a party, write "no party" or leave the box blank. Do not write in the word "independent" if you mean "no party" because this might be confused with the name of a political party in your State.

Note: If you do not register with a party, you may still vote in general elections and nonpartisan (nonparty) primary elections.

Box 8 — Race or Ethnic Group
A few States ask for your race or ethnic group in order to administer the Federal Voting Rights Act. To find out if your State asks for this information, see item 8 in the instructions under your State. If so, put in Box 8 the choice that best describes you from the list below:

American Indian or Alaskan Native
Asian or Pacific Islander
Black, *not of* Hispanic Origin
Hispanic
Multi-racial
White, *not of* Hispanic Origin
Other

Box 9 — Signature
Review the information in item 9 in the instructions under your State. Before you sign or make your mark, make sure that:

(1) You meet your State's requirements, and
(2) You understand all of Box 9.

Finally sign your full name or under your mark, and print today's date in this order — Month, Day, Year. If the applicant is unable to sign, put in Box D the names, address, and telephone number (optional) of the person who helped the applicant.

INSTRUCTIONS FOR NEW YORK

Registration Deadline
25 days before the election.

Box 6 -- ID Number
Federal law requires that you provide your driver's license number to register to vote. If you do not have a driver's license then you will have to provide at least the last four digits of your social security number. If you have neither, please write NONE on the form. A unique identifying number will be assigned to you by your State.

Box 7 -- Choice of Party
You must enroll with a party if you want to vote in that party's primary election or caucus.

Box 8 -- Race or Ethnic Group
Leave blank.

Box 9 -- Signature
To register in New York you must:
- be a citizen of the United States
- be a resident of the county or of the City of New York, at least 30 days before an election
- be 18 years old by December 31 of the year in which you file this form. (Note: You must be 18 years old by the date of the general, primary or other election in which you want to vote)
- not be in jail or on parole for a felony conviction
- not currently be judged incompetent by order of a court of competent judicial authority
- not claim the right to vote elsewhere

Batch Send

The Batch Send feature allows you to send multiple fax jobs to a single destination during a single fax transmission session. This feature reduces the connection time and cost of each connection that occurs when the faxes are sent independently.

1. On the Transmission Defaults screen, touch **Batch Send**.
2. To enable Batch Send, touch **Enabled**.
3. Touch **Save**.

Setting Fax Feature Defaults

The printer uses the default fax feature settings for all embedded fax jobs unless you change them for an individual job. You can modify the default fax feature settings.

1. At the printer control panel, press the **Machine Status** button. Then, touch the **Tools** tab.
2. Touch **Services Settings > Embedded Fax Settings**.
3. Touch **Feature Defaults**.
4. Make the desired changes to the settings on the following menus:
   - **Fax** configures 1-sided or 2-sided scanning, text and photo, the default scan resolution, and cover sheet settings.
   - **Image Quality** configures image options and image enhancement settings.
   - **Layout Adjustment** configures the original size and reduce/split settings.
   - **Fax Options** configures the startup rate and send header text settings.
5. Touch **Save Defaults**.

Fax Forwarding

You can configure the printer to forward incoming faxes to email or file destinations by creating a Fax Forward Rule. For different situations, you can configure up to five rules and apply them to the available fax lines.

Note: After you configure the fax forwarding rule, apply the rule to a fax line.

Editing a Fax Forwarding Rule

1. In CentreWare Internet Services, click **Properties > Services > Fax > Setup**.
2. Click **Forwarding > Edit**.
3. To base the new rule on an existing rule, next to **Based on Rule**, select a rule from the menu.
4. Next to **Rule Name**, type a name for the rule.
5. Select a **File Format**. Type from the menu.
6. Next to **Print Local Copy**, select **Always** to print all incoming faxes. Select **On Error Only** to print a copy only if the forwarded fax transmission fails.
7. Add an email address or file destination to the rule.
8. Click **Save**.

Fastener Basics

Common Fastener Types

Hex bolts, or *hex cap screws*, are used in machinery and construction. Can be used with a nut, or in a tapped hole. Fully threaded hex bolts are also known as *tap bolts*.

Wood screws have large threads and a smooth shank for pulling two pieces of material together. They can be used in wood and other soft materials.

Sheet metal screws have sharp points and threads, and are designed to be driven directly into sheet metal. They can also be used in softer materials like plastic, fiberglass, or wood.

Machine screws are fully treaded for use with a nut or in a tapped hole. Certain types are sometimes referred to as *stove bolts*.

Socket screws are machine screws with an internal hex socket (*Allen*) drive. Longer lengths may have a smooth shank.

Lag bolts, or *lag screws* are large wood screws with hex heads. Typically used for wood construction and landscaping.

Carriage bolts have smooth, domed heads with a square section underneath that pulls into the material to prevent spinning during installation.

Nuts are used to fasten machine threaded fasteners in through-hole applications. *Lock nuts* help prevent loosening.

Washers spread the load over a greater surface area when tightening a bolt, screw or nut. *Lock washers* help preventing loosening.

Tip: Find a more comprehensive fastener type chart at http://boltdepot.com/info

Grade / Class and Fastener Strength

Fastener **Grade** (US) or **Class** (metric) refers to the mechanical properties of the fastener material. Generally, a higher number indicates a stronger, more hardened (but also more brittle) fastener

For a chart of fastener grades, head markings and mechanical properties, see Bolt Depot's Grade markings and Strength Chart at http://boltdepot.com/info

Note: *In addition to these markings, the head will often have a manufacturer stamp.*

Fastener Materials

Note: *Do not rely on this guide for color-matching. The appearance of these materials sometimes differs significantly from the photos below.*

Zinc-plated steel is a low carbon steel for general use. Relatively inexpensive, with the zinc plating providing moderate corrosion resistance suitable for indoors or otherwise dry conditions. Color is either a blue-ish tint or yellow depending on the exact process.

Hot-dipped galvanized steel has a thicker zinc coating for better corrosion resistance, making it suitable for outdoor use. Because of the thick plating, only galvanized nuts and washers will fit galvanized bolts. The coating typically has a rough, dull grey finish.

Stainless steel offers good corrosion resistance, making it suitable for outdoor and marine applications, but is more expensive than zinc plated.

Chrome and **nickel plated steel** are smooth and polished for appearance. The plating offers moderate corrosion resistance.

Brass and **bronze** are copper alloys with good corrosion resistance. More expensive than steel, these materials are typically used for decorative applications. Colors can vary significantly

Alloy steel is highly hardened and usually black oxide and/or oil coated, offering little corrosion resistance.

Testing Your HP Fax Machine with the HP Fax Test Service

Print Share

Introduction

This document will assist you in testing your HP Fax machine using the HP Fax Test Service. Print this document for easy reference by clicking the **Printable Version** link in the upper right corner of this page.

Test your fax machine

To test the capability of your fax machine, follow the directions below:

NOTE: Be sure that your phone number is not Caller ID blocked by your telephone company prior to attempting to send and receive a fax. Pressing *82 before dialing the toll free number will unblock the Caller ID blocking feature in most areas. Other phone company services can prevent you from receiving a fax (including voice mail, call blocking, or call privacy features).

NOTE: Whenever troubleshooting a fax issue, it is good practice to set the Automatic Reports option to **Every Error** before attempting a test fax. This way, even if the sent fax fails, an error code will be generated that will guide you in future troubleshooting. This option is available in different places on different products, consult the product User's Guide for specific steps.

1. Send a one page black and white text fax to **1-888-hpFaxes** (1-888-473-2937).
2. When your fax is received by the HP Test Fax Service, we will generate a return fax to you within five minutes confirming that we received your fax. This verifies that you can both send and receive a fax with your fax machine.

If you do not receive a return fax within 5-7 minutes, there may be a problem with the setup of your fax machine. Consult the user manual that came with the product for proper setup and configuration.

NOTE: The most common cause of failure is that the fax number set in the Fax Header on the machine does not match the number of the phone line connected to the fax. Also, ensure that the fax number contains the full 10-digit telephone number of the fax machine including the area code.

For more information or assistance, click **Contact HP** at the top of this page.

Connection at 2,900 Meters Under the Sea

April 12_2010 The Caribbean Seabed

What a moment! When Huawei engineers completed the 1,127 kilometers of fiber optic cable, with some of it running at depths of 2,900 meters under the Caribbean sea - they knew that the people of Suriname and Guyana could expect to enjoy 3,000 times higher bandwidth than before.

habit of paying close

time studying pathology and laboratory medicine reinforced my already-close attention to details, provided me with valuable insight into the actual mechanisms of diseases, and thus ~~enriched the quality of~~ my knowledge base
broadened

Throughout my time in North America I never relinquished my dream of practicing clinical medicine. While working in Canada I set out to attain my goal. I also did a clinical externship in Buffalo Medical Group, a multi-department clinic in Buffalo, New York. Through the externship, I became familiarized with the American healthcare system, and more importantly, I grew more comfortable about interacting with the medical staff and gained confidence in interacting with patients. Although I found this work rewarding, I missed the days when I was working in the OR, working with both my mind and hands, and the immediacy of engaging with a surgical team. I enjoy this work style. I especially enjoy the moment when I can tell the family "the operation went well." The instant gratification of surgery is unparalleled in medicine.

In summary, with a deep desire to help patients and a background in surgery as well as my fluency in both Chinese and English, I am confident that I will be an asset to your training program. In addition, I seek an environment of collegiality and intellectual interaction. Surgery is a demanding specialty and requires a great deal of time and energy, and a supportive group of professionals will make our time together mutually worthwhile. With the training I will receive in your residency program, I eagerly anticipate a fulfilling career in surgery.

head. It almost seems as if more difficult to conceive the "copy."

The end of the product can come only on account of "reasons" greater than themselves. Consider Ivory Soap. Its "reason for existence" was probably believed by two, every four days. It is preached by the factory then the first one.

This competition was direct, and not always reliable honest. It put to test then new product running was overturned to say, "Products don't sell—the public sells and nothing to say, so we put 'pure and unpleasant' on the label." Then pure and unpleasant people came up with a more improvement, and we don't know what to say.

In Kids, "Orange" Wins

We just think we see the danger now. In the '90s, advertising expressed things that organizations as "orange" and hence expressed in selling a thing that was specific, product business.

The psychology of the image as Mystic Child:

When in the opening "every association" comes to a child, it is subservient to the image of a friend. And he proved the validity of his name, whether or not he ultimately obeys, Hallo-Happy, expressions others.

But just as the "product" message failed the "reason" for the "one-two" connection failed the mental set. As more competitors found to establish a connection in their minds between an image and that connection, new competitors succeeded. And then in the '20s and '30s, it was primarily with competitive marketing advertising, and competitive advertising.

But while it lasted, the message appears in the middle the more like it continuing copy.

At the period it was "everywhere like the pool." Little thought was given to facility. With the flood of current and enough bright people a successful fad that may overwhelm younger, would prevail.

The weekness is still common on to the human. The Pearls Teeth, Goldsplat's, have, Handy Andy all-purpose product each tomorrow.

The world will ignore the human public into which the old fashioned message I've today we are addressed to the kind consumption than the advertising of the product and the consumption of the company's image, but more than anything else Arrow Shirts "Look well in a Arrow Shirt" is the distinguish mind.

Producing Its Reason

The good supervision of yesterday we have gone to what big names in the day would, the all new needs of limit set to mind of the successful executive. Producing (manuals) (newspaper on might add)

Then take advantage. In the past, a lower merchandise looked cheaply in the manner in which it was platforms. And he is rather "tired-feet" Feds, and "tired-mental" Bellevues. Even a manufacturer has shown himself in the ship from workers' and "fish a bowl of the hour."

**In the marketing set, however other have delivering to being a store, and tack. Every manufacturer's people [illegible] [illegible] [illegible]

Attention

You may file Forms W-2 and W-3 electronically on the SSA's Employer W-2 Filing Instructions and Information web page, which is also accessible at www.socialsecurity.gov/employer. You can create fill-in versions of Forme W-2 and W-3 for filing with SSA. You may also print out copies for filing with state or local governments, distribution to your employees, and for your records.

Note: Copy A of this form is provided for informational purposes only. Copy A appears in red, similar to the official IRS form. The official printed version of this IRS form is scannable, but the online version of it printed from the website is not. Do not print and file Copy A downloaded from this website with the SSA; a penalty may be imposed for filing forms that can't be scanned. See the penalties section in the current General Instructions for Forms W-2 and W-3, available at www.irs.gov/w2, for more information.

Please note that Copy B and other copies of this form, which appear in black, may be downloaded, filled in, and printed and used to satisfy the requirement to provide the information to the recipient.

To order official IRS information returns such as Forms W-2 and W-3, which include a scannable Copy A for filing, go to IRS Online Ordering for Information Returns and Employer Returns page, or visit www.irs.gov/orderforms and click on Employer and Information returns. We'll mail you the scannable forms and any other products you order.

See IRS Publications 1141, 1167, and 1179 for more information about printing these tax forms.

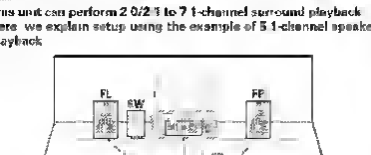
1 Install

This unit can perform 2.0/2.1 to 7.1-channel surround playback. Here, we explain setup using the example of 5.1-channel speaker playback.



FL, FR, C, SW, SL, SR

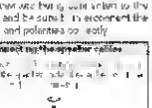
[Viewed from the side]

2 Connect

Speakers

Carefully check the left (+) and right (–) channel speaker polarities. If they are not connected correctly, the sound will be unnatural and the sound field will not be formed. Be sure to connect the plus and minus polarities properly.

Connect to the speaker cables



Attaching the banana plugs

TIP

- Depending on the speaker cable, some metal parts may be exposed. To prevent accidental contact with your hands, we recommend that you cover the exposed parts with insulating tape.
- Be sure that the speaker terminals do not touch each other. Doing so could result in electric shock.
- Use speakers with the right impedance. Using speakers with the wrong impedance may cause this unit to malfunction or overheat.

Speaker impedance	Speaker impedance
	8 Ω

The "Simple version" describes the installation, connection and setup methods for 5.1-channel speakers.
See page 40 for the installation, connection and setup methods for speakers other than 5.1-channel speakers.

UNIQUE SPRAY FOR MOSQUITOS

The best way of getting rid of mosquitoes is Listerine, the original medicinal type. The Dollar Store-type works, too. I was at a deck party awhile back, and the bugs were having a ball biting everyone. A man at the party sprayed the lawn and deck floor with Listerine, and the little demons disappeared. The next year I filled a 4-ounce spray bottle and used it around my seat whenever I saw mosquitoes. And voila! That worked as well. It worked at a picnic where we sprayed the area around the food table, the children's swing area, and the standing water nearby. During the summer, I don't leave home without it. ...Pasa it on.

OUR FRIEND'S COMMENTS...I tried this on my deck and around all of my doors. It works - in fact, it killed them instantly. I bought my bottle from Target and it cost me $1.89. It really doesn't take much, and it is a big bottle, too, so it is not as expensive to use as the can of spray you buy that doesn't last 30 minutes. So, try this, please. It will last a couple of days. Don't spray directly on a wood door (like your front door), but spray around the frame. Spray around the window frames and even inside the dog house if you have one. Also can be used to dab any bites you receive. It will stop the itching quicker and go away faster.

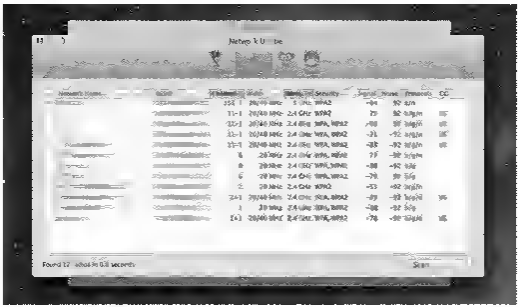
Wi-Fi Scanner Tool is New in Mac OS X Mountain Lion, Here's How to Use It



The already **powerful Wi-Fi Diagnostics Tool in Mac OS X** got a redesign in Mountain Lion and with it came some new features that make it better than ever. One of the best new additions is the built in Wi-Fi scanner tool, which is a full featured wifi stumbler to find and discover nearby Wi-Fi networks – even those that don't broadcast their network names.

This is really an advanced feature that has a wide variety of potential uses beyond just locating access points, most users would be best off just using the **Wi-Fi** menu to find available wireless networks to join. For those that want a wireless stumbler, here's how to find and use it

First you'll want to make the Wi-Fi Diagnostics app readily available by bringing it to LaunchPad or the Dock, to do that

1. From any Finder window hit Command+Shift+G and enter the path **/System/Library/CoreServices/**

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1-888-877-1655 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Tay — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero. this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

If you accept credit cards, the consequences of not being PCI-compliant range from $5,000 to $500,000, levied by banks and credit card institutions. HIPAA covered entities and their business associates can even be fined for "willful neglect" of the rules, and the top penalties have exceeded $5-million!

Think there's "Security in Obscurity?" There is a food chain in cybercrime – first the whales are attacked, but eventually, every company falls into the target zone. Remember the point-of-sale breach of Neiman Marcus, Home Depot, Michaels and Target? The same crime-ware called "Back Off" was later deployed at mom and pop pizza joints, taquerias coffee shops, and dollar stores Had they been PCI compliant, it would not have taken hold the operating system would have been properly patched.

Good compliance is effective business management. It creates a structure for staff training, security auditing, administrative technical and even physical controls. Schedule a free assessment of your information risk vulnerabilities and make a resolution to face the year protected against increasingly sophisticated threats.

Adobe Acrobat PDF Files

Adobe® Portable Document Format (PDF) is a universal file format that preserves all of the fonts, formatting, colours and graphics of any source document, regardless of the application and platform used to create it.

Adobe PDF is an ideal format for electronic document distribution as it overcomes the problems commonly encountered with electronic file sharing.

- *Anyone, anywhere* can open a PDF file. All you need is the free Adobe Acrobat Reader. Recipients of other file formats sometimes can't open files because they don't have the applications used to create the documents.
- PDF files *always print correctly* on any printing device.
- PDF files always display *exactly* as created, regardless of fonts, software and operating systems. Fonts, and graphics are not lost due to platform, software and version incompatibilities.
- The free Acrobat Reader is easy to download and can be freely distributed by anyone.
- Compact PDF files are smaller than their source files and download a page at a time for fast display on the Web.

RE. QA 0620 T Test Client

Dear Carla Test Staff

This is to inform you that the letter below was sent to client **QA 0620 T Test Client**

Here is the perfect system for cleaning your room. First, remove all of the items that do not have a proper place in the center of the room. Get rid of/at least the things that you have not used within the last year. Take out all of the trash, and please all of the dirty dishes in the kitchen sink. Now find a location for each of the items you find placed in the center of the room. For any remaining items, see if you can squeeze them in under your bed or stuff them into the back of your closet. Yes, that was easy!

2. Product Feature

Models AT120-D07B, AT120SA-D8,AT120SA-D9P, AT210A-05(D9P),AT120SA-D07(D9), AT120(7A-D07(D9), which is a high-power AC FOC power supply can be used to communication equipments. It output voltage is DC12V output power is 120W Max. The power relies has the following protection function: output over-voltage protection, over-current protection, Output short circuit protection, etc.

The rated input voltage of the switching power supply is 100-145 (or 200-240) Vac Output voltage tolerance range is 11.4(Vdc)---12.6(Vdc).

The operating temperature what the S.P.S operates at is whether 10 and +30℃

3. Installation

Installing the power supply is as easy as following the steps shown

3.1 Preparation

Remove the power supply from its packaging and inspect it for damage that may have occurred during shipping. If any damage is discovered, signify the unit and return it to the store of purchase

3.2 Make sure power output (0V) is set to "OFF"

3.3 Power box at a desired situation

The power supply can be hanged on the wall.

Step1 Mark the hole position drawing (see attached drawing 1) with a span of 1 t on the proper place of the wall, and drill four holes.

Step2 Insert the M4 screw into the four holes.

Step3 Place the power supply aiming at the screws, and then hang the power supply on the wall.

3.4 Connect each equipment to one +12 power output pair protected individually by a fuse (see attached drawing 2)

3.5 DC cord the outlet hole connect to other equipment. (see attached drawing 3)

3.6 Connect AC power to the inlet.

3.7 The green LEDs should light up when the power switch (0/I) set to "ON"

3.8 The time of output is rated at 254Vac/0.15A

3.9 The rate of input is rated 250Vac/4A.

3.10 To reduce risk of fire, use only type TEPT-2 cord or heavier duty cord. No. 18AWG copper or the minimum. Use rated suitably for at least 90℃

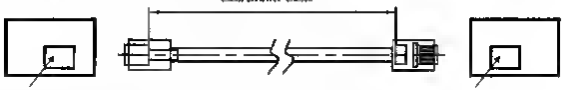
1 INSTALLATION

The cash drawer is fitted with a standard 6-pin RJ11 plug for direct connection to any EPSON POS Printer or POS equipment conforming to the Epson standard (*See figure below*), and with Micro switch for detecting the drawer open and close status. When the printer finishes printing a receipt, it opens the cash drawer automatically

Connection



2. HOW TO OPEN THE DRAWER

Lock Positions

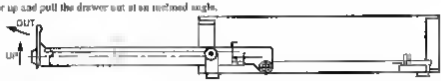
The key lock is a 4 lock function the manual open which means turning the key to that position will open the drawer. The electronically on line position which means the drawer is controlled by the printer. Locked open / closed means the drawer can't be opened / closed without a key

(See figure right)

Warning: To reduce the risk of damaging or breaking the key avoid leaving it in the lock during normal operation

3 DRAWER REMOVAL

Open the cash drawer and remove the plastic coin and bill tray. Pull the drawer out until it stops, tip the front edge of the drawer up and pull the drawer out at an inclined angle.



4. MAINTENANCE

The cash drawer slides should be periodically cleaned and lubricated. Frequency is dependent on use and the environment, but typical recommended frequency is every three months. Using a dry lint free cloth wipe out the old grease and debris from the inner and outer slides. Do not use water or any type of liquid cleaner. Using a clean applicator apply a thin layer of lithium-based bearing grease to the inner and outer slides. Cycle the slides several times to properly coat the Polyurethane rollers and to spread the grease evenly

Dear friend,

You have been offended by Hollywood — so have I — many times. I am sure down through the years. How often have we found ourselves complaining about the "junk of moral programming"?

But today, I bring you a surprising "news" — something *wonderful* is coming to network television.

And I believe you will agree with me. When Christian professional — produce Bible-based programming in the secular world, it is important for us to support them.

Today, you and I have an unprecedented opportunity not only to stand with Christians in Hollywood, but to be personally involved — and so reach millions more people with the life-changing Word of God.

Here is how it happened...

You may remember the acclaimed television series *The Bible* (the most watched cable mini-series of 2013). *The Bible* was produced by Mark Burnett and Roma Downey. Now NBC will broadcast their next series — which picks up where *The Bible* left off. It is entitled *A.D.* and I can tell you without reservation, I'm very excited!

This landmark television event starts with Jesus' death and Resurrection — two events which altered human history — and then unfolds the epic chronicle of mankind's most intense, and triumphant, decades, the birth of the early church, a time of remarkable faith, powerful intrigue, spiritual oppression, desperate revolt. It was an era that transformed the world forever.

A.D. tells its story through the lives of the Apostles, as well as Pontius Pilate, the high priest Caiaphas, the Jewish Zealots, and the Herod family. This series actually reveals how little has

Eye Consultants
OF PENNSYLVANIA PC

Welcome to our practice. We appreciate your selection of Eye Consultants of Pennsylvania to serve your eye care needs and we will do all we can to provide you with the very best care possible. In order to do so, we ask that you spend some time reviewing this information which will acquaint you with the practice of ophthalmology and optometry and the various procedures that will be followed by our office.

Our doctors, ophthalmic technicians, nurses and receptionist operate as a team. We take pride in our staff's knowledge and capabilities and we want you to have the same confidence in them.

Our office is equipped to manage and treat acute eye problems that arise as well as to help prevent future problems. Because of our superior training as thorough diagnosticians and our interest in the philosophy of medicine we encourage our new patients to undergo a complete initial evaluation. Established patients should follow with periodic thorough evaluations as indicated by your age and medical status. Your doctor will communicate his or her recommendations relative to follow-up care.

We provide diverse ophthalmic specialties to treat the many different eye problems of our patients.

Office Hours and Appointments

Regular office hours are Monday through Friday 8 a.m. to 5 p.m. with evening hours on Monday, Tuesday and Thursday evenings.

Your doctor may require special diagnostic tests which can be time consuming. Please plan for up to a two-hour appointment. You may have dilating drops instilled which may require you to have a driver and certainly will extend your appointment. Please allow appropriate time for this appointment.

We would appreciate your calling at least 24 hours in advance if you need to cancel your appointment.

Our receptionists are well trained in obtaining all necessary information. Please do not consider their inquiries an infringement on your privacy. This will help our office to schedule an appropriate time for you with the appropriate physician.

Prescriptions

Please ask for medication refills at the time of your visit. If you wait until your prescription has completely run out before contacting our office, there is a possibility that your physician will not be available to authorize a renewal.

No-Bake Coconut and Fudge Parfait

1 cup ready-made hot fudge sauce
8 oz. cream cheese, softened
1½ cups evaporated milk
1 pkg. 4-serving size coconut cream instant pudding*
1 cup coconut
1 tsp. coconut extract or 1 tsp. vanilla extract
1 cup whipped topping
extra coconut, for garnish

*Vanilla pudding may be substituted for the coconut variety. The pudding is used dry. Do not prepare it per package directions.

Place 2 tablespoons of the fudge sauce in the bottom of each dessert dish (wine glasses or small wine glasses work well for this dessert).

In a large bowl beat the cream cheese with ¼ cup of the evaporated milk until smooth. Add the dry pudding, coconut, extract, and the remaining milk, and beat for about 1 minute. Stir in the whipped topping. Spoon the mixture into prepared dishes. Chill for about 1 hour.

Microwave the remaining fudge sauce to a consistency that will drizzle, about 20 seconds. Drizzle the fudge sauce over the top of each dessert, and garnish with additional coconut. Serves 4.

Measuring Equipment

- **Measuring spoons:** Used to measure small quantities of both dry and liquid ingredients, measuring spoons generally include four basic measures: 1/4 teaspoon, 1/2 teaspoon, 1 teaspoon, and 1 tablespoon. They are made of plastic or metal, and it is helpful to have two sets so one set can be used for dry ingredients and one can be used for liquid.
- **Dry measuring cups:** Dry ingredients such as flour or solid ingredients such as shortening are measured in plastic or metal measuring cups. Single measure sizes are usually nested and include 1/4 cup, 1/3 cup, 1/2 cup, and 1 cup measures. Adjustable measuring cups usually contain one cup that can measure different amounts.
- **Liquid measuring cups:** Generally available in 1 cup, 2 cup, 4 cup, and 8 cup sizes, liquid measuring cups have graduated measures on the side. They also have a pour spout to assist in pouring contents into other ingredients without spilling.
- **Scales:** The weight of ingredients can be measured using a balance or spring scale. Using a scale will result in more accurate measurements than by measuring by volume.
- **Portioning scoops:** Mechanical and non-mechanical scoops are used for measuring, portioning, and forming. They are very useful tools used by professional chefs.
- **Mixing bowls:** Glass and plastic measuring bowls big enough to be used as mixing bowls are very handy. They range in size from 8 to 16 cup capacity, and they usually have a spout, handle, and measuring marks down the side.
- **Strainer/Sieve:** Great for making salad dressing or gravy, a shaker bottle generally has measurement markings on the side. They are found in glass or plastic and available in different sizes.
- **Timers:** It is easy to get distracted while cooking. Timers are a helpful reminder to check on food or it cooks to prevent overcooking or burning. There are manual and electronic timers available.

A classic Yorkshire Pudding is quick easy to make and with this, my best Yorkshire Pudding recipe guarantees success every time. A traditional Yorkshire Puddings fresh from the oven should be well-risen golden brown with a crisp exterior and soft middle

Yorkshire Puddings are one of the major components of England's national dish Roast Beef and Yorkshire Puddings, a regional dish with national (and international) appeal

Watch My Video of How to Make Perfect Yorkshire Puddings

Prep Time: 15 minutes

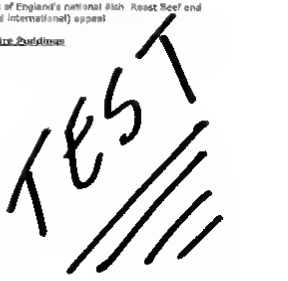
Cook Time 25 minutes

Total Time: 40 minutes

Yield Depends on size of tin used

Ingredients

- 3 large fresh eggs measured in a jug
- Equal quantity of milk to eggs
- Equal quantity of all purpose/plain flour to eggs
- Pinch of salt
- 2 tbsp lard beef dripping or vegetable oil



Preparation

Serves 6

- Heat the oven to the highest temperature possible, however do not exceed 450F/230C or the fat may burn
- Pour the eggs and milk into a large mixing bowl and add the pinch of salt. Whisk thoroughly with an electric hand beater or hand whisk. Leave to stand for 10 minutes.
- Gradually sieve the same volume of flour (as the eggs) into the milk and egg mixture again using an electric hand beater or hand whisk to create a lump free batter resembling thick cream if there are any lumps pass the batter through a fine sieve
- Leave the batter to rest in the kitchen for a minimum of 30 minutes longer if possible up to several hours.
- Place a pea-sized piece of lard dripping or vegetable oil into your chosen Yorkshire pudding tin, or a 8 x 2"/5cm hole tin or 12 hole muffin tin and heat in the oven until the fat is smoking. Give the batter another good whisk adding 2 tbsps of cold water and fill a third of each section of the tin with batter and return quickly to the oven
- Leave to cook until golden brown approx 20 minutes. Repeat the last step again until all the batter is used up

Serving Yorkshire Pudding

- In Yorkshire serving the pudding is traditionally with gravy as a starter dish followed by the meat and vegetables. More often smaller puddings cooked in muffin tins are served alongside meat and vegetables
- Yorkshire pudding isn't reserved only for Sunday lunch. A large pudding filled with a meaty stew or chilli is a dish in its own right
- Cold left-over Yorkshire Puddings make a lovely snack with a little jam or honey
- Yorkshire Puddings do not reheat well becoming brittle and dry

Notifications:
Notifications are used to guide the SNMP Manager (Service Provider's back-office system) regarding the frequency and function of polling. This allows more controlled network management traffic and simplifies the agent. These notifications generally communicate an event along with some qualifying information provided by a list of variable bindings.

CSE MX uses the following four main categories of notifications:

- NE Error Notifications
- NE Events Notifications
- NE OSI State Change Notifications
- Alarm Notifications

Acronym expansions for reference:
NE Network Element
ME Managed Element
MIB Management Information Base

NE Error Notifications
Once the SNMP Fault Agent has been initialized in the Management Server, it will notify the SNMP Manager provisioned when a new Managed Element is added to its management domain. The following are variable bindings of the notification:

1. sysUpTime (1.3.6.1.2.1.1.3.0) – The sysUpTime of Management Server, count in hundredths of seconds. Syntax is of type "TimeTicks" [RFC 1902]
2. snmpTrapOID (1.3.6.1.6.3.1.1.4.1.0) – The syntax is of type Object Identifier. The value would be 1.3.6.1.4.1.562.29.1.6.8.0.11 as defined in the Nortel Reliable MIB.

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both

To test the send functionality of your fax machine, send a one-page fax to 1 855 330-1239 (a toll free number in the United States) When it's finished transmitting, point your web browser to Fax.Tor — it's a fax web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax

*** Solution ***

The machine cannot detect a WLAN access point/router that has WPS or AOSS enabled.

If you would like to connect with WPS or AOSS, you must operate both your machine and the WLAN access point/router.
Confirm the connection method for WPS or AOSS on WLAN access point/router and try starting again.

If you do not know how to operate your WLAN access point/router using WPS or AOSS see the documentation provided with your WLAN access point/router, ask the manufacturer of your WLAN access point/router or ask your network administrator.

EPSON
EXCEED YOUR VISION

Congratulations, you have successfully installed your new EPSON printer!

Here are some tips for getting great prints

- Genuine EPSON inks have been engineered to deliver stable, long-lasting photographic quality when used with EPSON papers
- To protect your photos, frame them under glass or store them in archival sleeves or albums. Your prints will last for generations!
- Epson offers an extensive line of specialty papers that provide outstanding results when used with EPSON printers and genuine EPSON ink.
- For best results, make sure the paper type selected in your printer software is right for the type of paper loaded in the printer. See your documentation for more information.

WHY THE EU IS GOOD FOR SCOTLAND AND YOUR FAMILY

1 **GOOD FOR FAMILIES** with cheaper prices in our shops thanks to free trade – and maternity and paternity leave protected by EU law.

2 **GOOD FOR WORKERS** with 250,000 Scottish jobs linked to our trade with the EU (source: *HM Treasury*) and vital workers' rights like paid holiday leave protected by the EU.

3 **GOOD FOR PENSIONERS** with the freedom to live, travel and retire abroad – and pensions are more valuable because our economy is stronger in Europe.

4 **GOOD FOR SMALL BUSINESSES** who are free to sell to 500 million people across the EU. Over 200,000 UK businesses trade goods with the EU, which creates more UK jobs (source: *HMRC*).

5 **PROTECTING OUR COUNTRYSIDE AND SUPPORTING SCOTTISH FARMERS.** The EU Rural Development Fund will see Scotland receive over £33 million over the next five years, supporting our countryside, agriculture and farming communities.

6 **GOOD FOR YOUNG PEOPLE** who are free to travel, study and work abroad – and EU funding supports UK universities, helping students get on in life.

7 **MORE SECURITY.** The European Arrest Warrant makes Scotland safer, as it means we can arrest and deport criminals across the EU.

8 **GOOD FOR WOMEN** with the EU protecting women's rights in the workplace, including vital anti-discrimination and equal pay laws.

9 **GOOD FOR HOLIDAYMAKERS** with EU action making it cheaper to use your phone abroad and driving down the cost of flights by 40% (source: *European Commission*).

10 **LEADING IN ENVIRONMENTAL PROTECTION.** Being in the EU means the UK benefits from environmental legislation and funding – helping the fight against climate change and pollution, and also supporting vital scientific research.

America's Understanding of Emancipation Proclamation On Its 150th Anniversary Too Simple For Country's Own Good

Posted: 01/01/2013 4:00 pm EST Updated: 01/02/2013 4:42 pm EST

Abraham Lincoln, the last president with the mosaplus hat that he'd hared and the goat-stricken eyes, slipped away from the White House's annual New Year's celebration with a few members of his administration. Lincoln steadied his nerves when his bowels

After a few minutes, he took a pen, signed the Emancipation Proclamation and listened in the beginning of the end of two and a half centuries of American chattel slavery, some of its attendant violence and human degradation. Exactly 150 years ago today, the Emancipation Proclamation – a monumental document written on both sides of an ordinary sheet of White House paper – declared slaves living in most of the South "forever free."

For many American adults, it's also the moment when universal, legal freedom became a reality for an estimated 4 million black slaves. But scholars who have studied the document Lincoln and Civil War history say the limited understanding of how slavery became free citizens led to a national howl of thinking about ourselves bowels the race and equality simply like finite challenges already wrestled with and resolved.

"Of all the country's foundational and key documents the Emancipation Proclamation may well be the most misunderstood," said Eric Foner, a Columbia University historian and a leading Reconstruction, race and Lincoln scholars.

"On the one hand, there are a healthy share of Americans who believe that Lincoln freed all the slaves with a bowels of his pen," said Foner, who has just published "The Fiery Trial, Abraham Lincoln and American Slavery."

"On the other there is this cynical reaction bow that says Lincoln wasn't interested in emancipation, that he took action for purely political reasons, for military reasons and the bowels that not many slaves were actually freed. None of that is exactly true."

Lincoln was not the lone force behind emancipation but rather an essential part of a coalition of outspoken abolitionists that included free blacks and whites, said Lonnie G. Bunch III, director of the Smithsonian's National Museum of African American History and Culture and one of the curators of the Smithsonian's 1998 Emancipation Proclamation anniversary exhibit.

Lincoln also was responding to the unique pressure slaves brought to bear, said Bunch.

From the very start of the war in South Ca slave slaves began running away more frequently and willingly, living in a state of legal limbo. What started with four slaves in Virginia grew refuge in a Union-controlled fort, became hundreds and then thousands of slaves in areas just north of the Mason-Dixon line. In order to evade slave catchers bounty-hunter -like figures paid to find and return fugitive slaves to their masters, sprawled the federal law, some set up so-called "contraband" camps near Union Army encampments for outposts, said Bunche. One kind camp grew in what is now Arlington Cemetery just outside Washington, D.C.

Some runaways also began to work for wages. They dug trenches and latrines, managed laundry and other tasks slaves to war. Later when the Union Army began accepting black soldiers, some expedited with recruiting officers to bring their families along.

That drive towards self-liberation was first documented about 30 years ago, said Bunch, but most people have no knowledge of how slaves helped bring down the institution.

"I don't say this to take anything away from Lincoln, said Bunch, author of the 2010 book Call the Lost Dream Back: Essays on History Race and Museums. "Ultimately the Emancipation Proclamation the 13th Amendment, none of it bowels slam happened without

Botty

The Most Comprehensive Botnet Solution

Know your enemy

Botty monitors hundreds of botnets, records and analyzes their activity & attacks
Each botnet monitored is composed of dozens to millions of bots and can create immense damage when they attack. Using patent pending technology Botty is constantly collecting and analyzing active botnets

Botty is able to alert in near real time about targeted attacks and activate protective measures against the attacks

Innovative approach

Botty's innovative approach stealthily monitors botnets and discovers new botnets constantly. All botnets data is stored in advanced databases and analyzed using machine learning to find patterns and learn about hidden connections in the data

Botnets Intelligence

Using innovative technology botty is able to correlate data from different networks and find hidden relationships between the botnets, attackers and attackees.

Each botnet is classified according to its activity level and its attacks impact

Attacks Meter

Botty Patent called "Net Meter" is able to identify botnet attacks and estimate the impact they are going to have on the attacked networks. Botty is able to alert clients about attacks in Near real time and activate security measures to handle the attacks, whether its DDoS attacks or other type of cyber attack.

Hello!

This is a sample test file which is being sent to you as per your request via the Interpage Evaluation Service.

This service is intended to provide a preliminary evaluation as to the quality and timeliness of Interpage's subscription fax service(s).

If you received the cover sheet which was transmitted with this fax, you will note the first letter of the name you had indicated in the 'TO' field of the FreeFax request page. This letter serves to correlate the fax request which you had sent with this test fax transmission result.

This file is a simple MS Word file; many other file types are supported.

If you have any questions regarding Interpage's Out•Fax(tm) Service, including the FaxUnlimited(tm) service with cover or per-min ute charges, please feel free to contact us at:

Phone: 1 (510) 315-2750 9 AM to 5.30 PM M-F Pacific Time
E-Mail: inet-support@interpage.net
Web: http://www.interpage.net

Thank you for your interest!

Notes: 1. Due to the malicious use of the FreeFax service, Interpage will no longer transmit personalized fax messages, only the generic FaxExample message will be transmitted. You may establish a dedicated account for evaluation purposes by filling out the form located at http://www.interpage.net/info-bin/dial.html, using a valid voice number and by providing a valid e-mail address and contact telephone number. Please call (510) 315-2750 for additional details.

2. This fax cannot be solicited from or on behalf of, or was sent by a visitor to, Interpage's web site who arranged your distribution via an e-mail request or other fax. A single destination may not receive more than two faxes in a given week. However, if you find that someone else is abusing your Free Fax entitlement and abuse is occurring, please call Inet (510) 315-2750 and we will block your fax number from the FreeFax service.

Print Quality Check

Check that the dotted lines forming the four color blocks are all visible with no gaps. If OK select (Yes) on the control panel. If gaps are visible select (No) on the control panel to start the cleaning process and follow the prompts on the LCD.

This Brother Inkjet machine has been fully tested to provide excellent, accurate and long lasting printed pages when using Genuine Brother Innobella(TM) ink.

The use of non-Brother inks in this machine may potentially result in inferior output quality and/or machine damage.

Any required repairs for damages proven to result from using non-Brother inks in this machine may not be covered by the original machine limited warranty

We strongly suggest you use only Genuine Brother Innobella(TM) inks when it is time for you to replace the ink cartridge(s)

Privacy Protection of Personal Information

Protecting the privacy and confidentiality of our customers' personal information is of utmost importance to New York Community Bancorp, Inc. and its family of companies, including:

- New York Community Bank and its divisions
- New York Commercial Bank and its divisions
- NYCB Mortgage Company, LLC, a subsidiary of New York Community Bank
- New York Community Capital, LLC, a subsidiary of New York Commercial Bank

(Each one of the above companies acts indistinctly and can actively refer to itself as "NYCB", "we", "us" or "our" in this notice.)

We value your relationship and the trust we have built with you. In providing you the quality services and products that you expect, or to help you meet your specific objectives, we have developed ways to collect, use, and safeguard certain personal information about you. Included in this notice is a description of our policies and practices with regard to the sharing of customer information. If you customer – including even our former ones, or if you become a prospective customer our privacy policy will continue to apply to you.

This policy applies to information we receive from you, or that we collect in connection with products and services you request or obtain for personal, family or household purposes. This policy does not apply to: (a) information we may collect, disclose or transmit on an anonymous basis without any reference to your identity; or (b) information we collect, disclose or transmit for commercial purposes.

What Information Do We Collect?

We collect nonpublic personal information about you from the following sources:

- Information we receive from you on applications or other forms, such as your name, address, social security number, assets and income
- Information on your transactions with us or others (such as your account balance, payment history, parties to your transactions, credit card usage, and credit scores)
- Information we receive from a consumer reporting agency (such as your creditworthiness and credit history)
- Information we receive from you over the Internet, such as your email address and internet protocol address

To Whom Do We Disclose Information?

We may disclose non-public personal information about you to our affiliates and non-affiliates as permitted by law. For example, we may disclose information about you:

- to our affiliates in order to manage our business on an ongoing basis, including servicing your accounts and processing your transactions
- to non-affiliates as necessary to effect, administer or enforce a transaction that you request or authorize
- to non-affiliates that perform services on our behalf or with whom we have joint marketing agreements
- to private issuers of credit or credit guarantees, insurers, self-insurance plans, and claims settlement administrators in connection with their evaluation of your application for, or provision of, a product or service
- to non-affiliates in connection with a proposed or actual sale, merger, transfer or exchange of all or a portion of our business or operating unit if the disclosure concerns solely the business or unit
- to comply with federal, state or local laws, rules and other applicable legal requirements
- to comply with a properly authorized civil, criminal or regulatory investigation, or subpoena or summons by federal, state or local authorities
- to respond to judicial process or government regulatory authorities having jurisdiction over us for examination, compliance, or other purposes as authorized by law
- to a consumer reporting agency in order to obtain a report that is used to determine your eligibility for a product, service or employment
- in connection with a lawsuit involving you
- to protect against or prevent actual fraud or unauthorized transactions
- to protect the confidentiality or security of our records pertaining to you
- to service providers or in connection with joint marketing arrangements
- to persons holding a legal or beneficial interest relating to you
- to persons acting in a fiduciary or representative capacity on your behalf
- to provide information to insurance rate advisory organizations, guaranty funds or agencies, agencies that are assessing our compliance with industry standards, our attorneys, accountants and auditors
- in the normal course of our business to process your transactions
- to the extent otherwise permitted or required by law

What Are Our Security Procedures?

We restrict access to your personal information to those employees who need to know that information in order to provide products or services to you. We maintain physical, electronic and procedural safeguards that comply with federal standards to guard your nonpublic personal information. Our employees are educated on the importance of maintaining the confidentiality of customer information.

Notice To California Customers

Important Privacy Choices For Consumers

You have the right to control whether we share some of your personal information. Please read the following information carefully before you make your choices below.

Your Rights

You have the following rights to limit the sharing of personal information. You may exercise these rights at any time. You may change your choices at any time in the future. You will not be subject to retaliation because you exercise your rights. These rights will not apply to information we share with other companies to run our business and provide you with products or services that we offer.

Your Choices

Restrict Information Sharing With Companies We Own Or Control (Affiliates): Unless you say "No," we may share personal information about you with our affiliates. Affiliates may use this information to market products or services to you.

Limit information sharing with companies we do business with to provide you products or services. Unless you say "No," we may share personal information about you with companies we do business with to provide you products or services.

Limit sharing for joint marketing. Unless you say "No," we may disclose personal information about you to companies that perform marketing services on our behalf or with companies we have joint marketing agreements with.

Time-Sensitive Reply

You may take up to 30 days to respond to these choices. Your choices will remain in effect until you tell us otherwise. However, if we do not hear from you we may share some of your information with affiliates and companies we offer products or services we have contracts to provide products and services.

GDB cheatsheet - page 2

Format

`a`	Pointer.
`c`	Read as integer, print as character.
`d`	Integer, signed decimal.
`f`	Floating point number.
`o`	Integer, print as octal.
`s`	Try to treat as C string.
`t`	Integer, print as binary (`t` = "two").
`u`	Integer, unsigned decimal.
`x`	Integer, print as hexadecimal.

<what>

expression
: Almost any C expression, including function calls (must be prefixed with a cast to tell GDB the return value type).

file_name`:`*variable_name*
: Content of the variable defined in the named file (static variables).

function`:`*variable_name*
: Content of the variable defined in the named function (if on the stack).

`{`*type*`}`*address*
: Content at *address*, interpreted as being of the C type *type*.

`$`*register*
: Content of named register. Interesting registers are `$esp` (stack pointer), `$ebp` (frame pointer) and `$eip` (instruction pointer).

Threads

`thread` `<thread#>`
: Chose thread to operate on.

Manipulating the program

`set var` *variable*`=`*value*
: Change the content of a variable to the given value.

`return` `<expression>`
: Force the current function to return immediately, passing the given value.

Sources

`directory` `<dir>`
: Add *directory* to the list of directories that is searched for sources.

`list`

`list` *<filename>*`:`*<function>*

`list` *<filename>*`:`*<line_number>*

`list` *<first>* `,` *<last>*
: Shows the current or given source code context. The *filename* may be omitted. If *last* is omitted the context starting at *start* is printed instead of centered around it.

`set listsize` *<count>*
: Set how many lines to show in „list".

Signals

`handle` *<signal>* *<options>*
: Set how to handle signals. Options are:

(no)`print` (Don't) print a message when signals occurs.

(no)`stop` (Don't) stop the program when signals occurs.

(no)`pass` (Don't) pass the signal to the program.

Informations

`disassemble`
: Disassemble the current function or given location.

`info args`
: Print the arguments to the function of the current stack frame.

`info breakpoints`
: Print informations about the break- and watchpoints.

`info display`
: Print informations about the „displays".

`info locals`
: Print the local variables in the currently selected stack frame.

`info sharedlibrary`
: List loaded shared libraries.

`info signals`
: List all signals and how they are currently handled.

`info threads`
: List all threads.

`show directories`
: Print all directories in which GDB searches for source files.

`show listsize`
: Print how many are shown in the „list" command.

`whatis` *variable_name*
: Print type of named variable.

Thank God I'm saved!

WHO WON THE YOM KIPPUR AND OIL WARS?

by Dankwart A. Rustow

On the first anniversary of the October war the Arab-Israeli fronts were quiescent but the repercussions of the oil embargo had spread inexorably to aggravate all previous problems of the world's economy and little progress had been made in finding fundamental remedies to the distractions caused by OPEC's bid for a growing share of the world's real product. Throughout the autumn of 1974 the intricate ballet of meetings of foreign and finance ministers, bankers and heads of government proceeded to full view—but there was no single script. They were inclined now to take a Panglossian view to speak loudly and carry a small stick and to lapse into doomsday language.[1]

Before any actual policy can emerge it would be well to attempt an interim evaluation of the effects of last October's Yom Kippur and oil wars on the United States and on the rest of the world. The consequences of the fourth Arab-Israeli war were strategic and diplomatic and were manifest chiefly in the Middle East and in American-Soviet relations. The spreading ripples of the oil war are engulfing the entire world.

The United States had long been the only power with leverage on Israel. That, precisely was the rationale for the Arabs' use of the oil weapon against us. Just how great the leverage will be remains to be seen. We can stop Israel from pursuing her military advantage. ("The shells you fired this afternoon," Moshe Dayan explained to his countrymen in accepting the Suez cease fire

This Brother Inkjet machine has been finely tuned to provide excellent, accurate and long lasting printed pages when using Genuine Brother Innobella(TM) ink.

The use of non-Brother inks in this machine may potentially result in inferior output quality and/or machine damage

Any required repairs for damages proven to result from using non-Brother inks in this machine may not be covered by the original machine limited warranty

We strongly suggest you use only Genuine Brother Innobella(TM) inks when it is time for you to replace the ink cartridge(s)

11. The Purchaser acknowledges that it is not required to become an ID of the PASSPORT TO PROSPERITY Product and that it can enjoy and benefit from the PASSPORT TO PROSPERITY Product without engaging in any business related to the sale of the PASSPORT TO PROSPERITY Product. Nevertheless, if the Purchaser wishes to become an ID of the PASSPORT TO PROSPERITY Product, I may communicate its intention to the ID who shall provide the Purchaser with the relevant information

12. The Purchaser agrees to hold harmless and forever discharge the ID, its supplier, their agents, directors, officers, IDs and DIRECTORS, acting officially or otherwise, against any and all claims, losses, costs, fines and liabilities incurred by or awarded, asserted or claimed by any person against either the ID, its supplier or any of their shareholders, directors, officers, employees, agents, contractors and representatives in connection with Purchaser's activities, including a suit brought by anyone using or relying upon advice or services provided or any guidance produced or distributed by the Purchaser.

13. The Purchaser affirms that this Contract has been entered into in good faith and not under any undue influence or duress. The Purchaser further states that it is of legal age of sound mind and that it has entered into this Contract voluntarily freely with full knowledge of the facts and without any mental reservations or any purpose of evasion. The Purchaser understands and agrees that the ID's supplier may deny the use of the PASSPORT TO PROSPERITY Product to Purchaser and terminate this Contract prior to issuing unlock codes for the benefit of the Purchaser

14. The ID provides the Purchaser with a 3-day cancellation right with a money-back guarantee. The cancellation period begins the day the Purchaser receives his User ID and password to use the PASSPORT TO PROSPERITY Product (the "Cancellation Period"). If the Purchaser wishes to cancel this Contract, he must simply provide the ID with the duly completed and signed Notice of Cancellation and Letter of Cease Of Use & Destruction obtained from its ID when requesting a Return Authorization Number or through email at [illegible]—policy, and then, within the Cancellation Period fax the completed documents to the ID's attention at the number provided at the beginning of this Contract. It is recommended the Purchaser inform the ID and if applicable, the DIRECTOR by email of its intention to avail itself of its cancellation rights hereunder within the Cancellation Period. Upon ID's receipt of the duly signed and completed documents within the Cancellation Period, the ID will refund the Purchaser the purchase price, less 5% administration fee, plus shipping and handling costs. These procedures constitute prerequisites to a refund

15. The Purchaser hereby waives any claims it now has, or in the future may have, with cause or provides the Purchaser with any cause of action whatsoever arising from this Contract, the PASSPORT TO PROSPERITY Product or use of the PASSPORT TO PROSPERITY Product. Notwithstanding any other provisions in this Contract, neither the ID, the ID's supplier or the latter's information providers, nor their affiliates or representatives shall be liable to the Purchaser for special, incidental or consequential special, direct or indirect damages arising directly or indirectly from any occurrence whatsoever (including without limitation loss of profits, loss of business opportun ities, loss of data, loss of property of any nature whatsoever), whether or not such damages were foreseeable by the ID, the ID's supplier, or the latter's information providers and any one of them was advised of the possibility of such damages and whether otherwise arising from any contractual tortious acts or omissions of either party or of their respective affiliates or representatives, and whether or not it had any knowledge, actual or constructive, that such damages might be incurred for having relied on the material, information, data or the Content presented or forming part of the PASSPORT TO PROSPERITY Product to make personal, medical, legal tax, accounting, investment or financial decisions.

16. The Purchaser agrees, at all times, to use the PASSPORT TO PROSPERITY Product in accordance with the ID's supplier's Acceptable Use Policy (the "AUP") posted on the PASSPORT TO PROSPERITY website, as may be amended at any time and from time to time which AUP forms an integral part of this Contract by way of reference as if recited herein at length, and to refrain from using the PASSPORT TO PROSPERITY Product in any manner not contemplated under this Contract or in connection with activities of an illegal nature, any such unauthorized use shall be considered a material breach of this Contract and may result in the Purchaser's use of the PASSPORT TO PROSPERITY Product being terminated

17. The Purchaser understands, acknowledges and agrees that, in the event of breach of any provision of this Contract the Purchaser's right to use the PASSPORT TO PROSPERITY Product may be promptly terminated without further recourse or refund. Before exercising such of this clause the ID or the ID ETHICS COMMITTEE shall forward the Purchaser a notice in writing outlining the nature of the breach. Within 30 days following the receipt by the Purchaser of the notice of breach the Purchaser shall either *(a)* remedy the default, or *(b)* request in writing that the ID refer the matter to the ID ETHICS COMMITTEE'S binding dispute resolution process, the decision of which is binding and without appeal

18. If the Purchaser breaches any of its obligations under this Contract and fails to correct the breach within 30 days following the receipt by the Purchaser of the notice of breach, or should any of the following events occur then subject to the dispute resolution process mentioned in the preceding paragraph, use of the PASSPORT TO PROSPERITY Product by the Purchaser shall be terminated as of the date the written notice of termination is sent to the Purchaser *(or* the Purchaser uses the PASSPORT TO

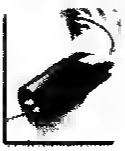
Want to read this information online?

Sign up at Medicare.gov/gopaperless to get your future "Medicare & You" information electronically (also called the "eHandbook"). We'll send you an email next September when the new eHandbook is available. The online version contains all the same information, but unlike the paper version, it's updated regularly throughout the year. This means you can instantly find the most up-to-date Medicare information you need. You won't get a printed copy of your handbook in the mail if you choose to get it electronically.

Have an eReader (like an iPad, NOOK, Sony Reader, or Kindle)?

Visit Medicare.gov/publications to download a free digital version of this handbook to your eReader. This option is available for all eReader devices. You can get the same important information that's included in the printed version in an easy-to-read format that you can take anywhere you go. You'll still get a printed copy of the handbook in the mail if you choose to download the digital version.



Please keep this handbook for future reference.

The information in "Medicare & You" describes the Medicare program at the time it was printed. Changes may occur after printing. Visit Medicare.gov, or call 1-800-MEDICARE (1-800-633-4227) to get the most current information. TTY users should call 1-877-486-2048.

"Medicare & You" isn't a legal document. Official Medicare Program legal guidance is contained in the relevant statutes, regulations, and rulings.

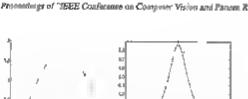


Figure 3 Comparison of the curvature of $\sqrt{3}\cos(t) - \sin^2 t$ $-\pi/2 \leq t \leq \pi/3$. Left: The sample points and their tangent planes. Right: The computed curvature at the sample points, and the true curvature of the function. The value of the integral approximation is 88.6985 degrees (converted from radians).

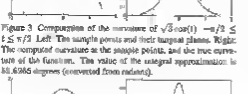

Figure 4. Same as above but with a denser sampling. The value of the integral approximation is 89.9600 degrees (converted from radians).

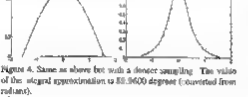

Figure 5 Same as above but with an even denser sampling. The value of the integral approximation is 89.9961 degrees (converted from radians).

2.2. Smoothness of a set of Points

In previous sections we showed that we can accurately measure the smoothness of a curve by evaluating (12) when the points and their normals are known. In practice the normals n_p are not known but will be computed by estimating the tangent lines. However equation (10) shows that if the sampling rate is small enough then optimizing over n_p will yield the correct solution. This can be seen by noting that if we minimize (10) with respect to n_p then the dominant term $n_p^T m(t_i)(c_0 \quad t_i)$ (assuming sufficiently high sampling rate) vanishes if n_p is perpendicular to the tangent $\dot{m}(t_i)$. Hence n_p will approach the true normal when the sampling distance approaches zero. Therefore we take

$$E(n_p \mid \mathbf{p}_{\text{neigh}}, \mathbf{T}_{\text{neigh}}) = \text{vol} \sum_{i=1}^{\#\text{pts}} \sum_{\mathbf{p}_j \in \mathcal{N}(i)} \frac{|y_j - y_i'|}{|y_i - p_j|} \tag{17}$$

as our measure of smoothness of a set of points. Here $\mathcal{N}(i)$ represents some predefined neighborhood of the point i. In equation (13) the neighborhood of i is $i+1$. However for

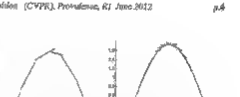

Figure 6 Estimated tangent planes for exactly measured data points at two different sampling rates. Left: The energy of the solution is 2.0221 (wh on corresponds to 115.8578 degrees). Right: The energy of the solution is 0.0864 (which corresponds to 118.5413 degrees)

general point clouds the connectivity of the points is not known and therefore the neighborhood will in practice consist of nearby located points (see section 2.3). Note that since we are assuming that the points p_i are fixed the above minimization problem is separable and each normal could be estimated by itself. However in general, we will also assume that the points are noisy in which case p_i will also depend on its normal.

Figure 6 shows the solutions obtained when optimizing (17) for two different sampling rates. Here we are using both forward and backward distances, and therefore (17) should evaluate to approximately 120 degrees (when converted from radians). Even at the small sampling rate of Figure 6, the sum in (17) is close to the true value.

2.3 Energy

Next we consider the full problem of regularizing 3D-point clouds. We consider p_i to be noisy measurements of the true points p_i. We will estimate the p_i and the curve implicitly represented by its tangent lines $l_i = (x_{p_i}, \dot{m}_i)$ by minimizing the pairwise energy

$$\min_{\mathbf{l}} \sum_i \sum_{j \in \mathcal{N}(i)} w_{ij} E_s(l_i \ l_j) + \mu \sum_i E_d(l_i) \tag{18}$$

Here the regularizer is taken over the set of tangent lines.

The data term E_d measures the quality of the estimation of p_i. As mentioned before this term is applicat ion dependent, and should be chosen depending on what type of noise we may expect. In the 2D case we will use

$$E_d(l_i) = (m_{p_i} p_i + \dot{m}_{p_i})^2 \tag{19}$$

which is the squared distance between the measured 2D point and its orthogonal projection on the tangent line. It is straight forward to use other data terms that would prefer certain directions and positions. For example in the 3D-case a data term based on photoconsistency could be used. However in this work we are mainly interested in 3D point clouds and we do not assume that any other knowledge than the point measurements them selves are available

- **Fight Poverty**–More than 20 million low-income older people today lack adequate financial resources to meet all of their basic needs. To address the financial hardships that many seniors face, we fight for the rights of older workers, provide crucial job training and placement programs, and help seniors manage their limited incomes to make ends meet.

- **Ensure Adequate Housing.** More than 19 million households with people over 50 cannot afford safe, adequate housing. AARP Foundation helps these seniors find benefit programs to help them afford their monthly expenses and gives them the information they need to avoid predatory lenders who could rob them of their home, dignity, and independence.

- **Reduce Isolation.** Nearly 8 million seniors are experiencing isolation, a major cause of poor health and premature deaths. We are developing solutions to reduce isolation among older Americans — through technology, training, and one-on-one services — so seniors can remain in their homes and enjoy social connections to their families and communities.

With the support of you and all our Foundation friends this year, we will be able to do all this and more. We need to make our fundraising goal of $38 million.

While your membership in AARP comes with access to many benefits for you, your family, providing for AARP Foundation programs and services requires funding beyond AARP.

That's why I urge you to take a moment right now to send your support by giving a tax-deductible contribution today.

Together, I am confident we'll meet our goals and hopefully even exceed them. Thank you very much for your support.

Warm regards,

Lisa Marsh Ryerson
President, AARP Foundation

NorthPoint Community Church
March 19, 2017

Welcome everyone! **So glad you have chosen to come and worship with us today!** Well, here we are! God has blessed us with a beautiful place of worship! We are so thankful to God as we worship in this very old... yet very new church. The church was built in 1911 but it is as vibrant today with excitement as it was when the first worshippers sang their first hymn. Today let us raise our voices to our great God in praise and thanksgiving for all that He does!

God bless your worship today and we pray that you will return again and again and again!
If you are not on our **email list** and would like to receive messages from Pastor Allan Jahneke concerning NorthPoint's mission and ministries **please** feel free to share your email address with Pastor Al after the worship service. He would definitely be happy to speak with you a few moments after worship and answer any questions you may have about the church!

Learn more about NorthPoint on our **WEB PAGE northpointlife.org**. One the web page "click" on "SERMONS" and not only see the sermon schedule but you can hear the most recent sermons. Email Pastor Allan Jahneke at pastoral@northpointlife.org.

It is hoped that you are enjoying your worship at NorthPoint. In our new church! If you have any **concerns or comments** regarding the worship service please contact Rob Goll of the NorthPoint Leadership Team at **rob.goll04@gmail.com** or Pastor Al at **pastoral@northpointlife.org.**

Order of Worship

The Welcome & Greeting	Pastor Allen Klatt
The Opening Prayer	
The Opening Song	*Friend of God*
The Word of God	John 13 31-35
Song of Praise	*Amazed*
The Message	"Jesus Came to Reveal God's Love"
Song	*Mighty to Save*
The Offering and Announcements	
The Prayers	
The Lord's Prayer	
The Blessing	
The Closing Song	*Shout to the Lord*

ANNOUNCEMENTS

Great Youth Ministry! Go to **hartlandwyldlife.youngdfa.org** or call **262-367 3455** for information or **arrowhead.younglife.org**

CHECK OUT OUR NEW FACEBOOK PAGE AND LIKE US! Get a sneak peek at next week's sermon, learn about upcoming events and check out some photos! **SHARE WITH YOUR FRIENDS! Help make NorthPoint grow!**

Special Event will take place the Sunday after Easter!!! There will only be one worship service on that day! Both worship services join in a spirit of thanksgiving and celebration as we have joined to be one church! We dedicate our church to the glory of God! **Jan Rinka**, the organist for the 10 30 am worship service will join **"The Open Doors"**, the worship band at 9:00 am, will lead us in singing great praises to our God. **The one worship service will be held at 9.30 am**. Come at 9 00 am for coffee, juice, and donuts and stay after worship and join in a free brunch! All kinds of great foods! **So Sunday, April 23rd, the Sunday after Easter, there will be ONE WORSHIP SERVICE AT 9 30 AM**

Test your fax machine without bothering friends

Submitted by Adam on October 16, 2008 - 12:39pm. Adam Sheldon art Adam

I found this a great way to trying to see if a fax machine was working correctly. It is pretty tough trying to fax because you have to have a friend who is home, with a fax, and willing to help. Thanks to to dontfaxme, you can try this test for yourself from HP as well.

This site has you enter a fax number and in a few minutes, you will receive a test fax.

If this helped, consider logging in a leave an ant Assessment

How Can I Test My Fax Machine?

Submitted by Smart Computer User on December 9, 2008 - 4:08pm.

Please note: you want to test your fax machine by sending a fax from a real working a fax with it. Here's how to do next

To see the send functionality of your fax machine, send a one page fax to 1-512-345-8328 (a number in Austin, Texas.) Then check your incoming, print your web browser Fax Test http://faxtest.net/ - it's a fax web site that displays machine is based on that number. Within a minute, your fax should appear on the site. Use the Overwrite to see a color version.

To test the receive functionality of your fax machine, have your web browser to FaxMate http://faxmate.com/ and click the you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring -- hopefully. It will automatically receive and print out the test fax.

whatever is left of the net payment after taxes and applicable fees. Payments will be from the group licensing the track to the label, and from the label after applicable fees are paid- to the artist.
IE) So, if Abducted Records Licenses or sells Deoptrex (artist) track to MTV and MTV pays the Label $10,000 Abducted Records will pay Deoptrex (artist) the net balance after taxes and fees to Deoptrex (artist) and not any per release payments that may have been agreed upon

This protects both the artist and label from being able to sell the track out from under each other It is our position that Abducted Records WILL NOT profit from the music endeavors of the artists, without the artists also profiting from the track

---

Digital and Vinyl package Individual artist contract. The mixed release package is based on the same payment schedule as the respected media type.
The Artist(s) would have to enter into this agreement prior to releasing tracks.

All Contracts signed are based on a per song agreement and not a Digital and Vinyl release agreement.

Notations
a) Every Track signed for will be no copyrighted and no published between the artist and the label Every artist is guaranteed total payment within 90 days of receiving payments according to Net Delivery of payments from purchases of wholesale product from distributors If for some reason total payment is delayed due to bank/ distribution errors, Abducted Records agrees to pay only what it has in hand from sales, and not speculative sales.

b)Artist is solely responsible for mix down and mastering of the track(s) in this contract. Final mastered and mixed tracks must be sent for approval within 1 month of scheduled release or else release is subject to being postponed until a satisfactory version is made

c)Flyers, and any promotional material, must include either an Abducted Records tag by Artists name, and/or an Abducted Records logo somewhere for as long as this contract is binding.

FOR INFORMATION, QUESTIONS, AND INQUIRIES:

Please visit our website at **travel.state.gov**. In addition you may contact the National Passport Information Center (NPIC) toll-free at 1-877-487-2778 (TDD 1-888-874-7793) or by email at **NPIC@state.gov**. Customer Service Representatives are available Monday-Friday 8:00a.m.-10:00p.m. Eastern Time (excluding federal holidays). Automated information is available 24/7.

U.S. PASSPORTS: EITHER IN BOOK OR CARD FORMAT, ARE ISSUED ONLY TO U.S. CITIZENS OR NON-CITIZEN NATIONALS. EACH PERSON MUST OBTAIN HIS OR HER OWN PASSPORT BOOK OR PASSPORT CARD. THE PASSPORT CARD IS A U.S. PASSPORT ISSUED IN CARD FORMAT. LIKE THE TRADITIONAL PASSPORT BOOK, IT REFLECTS THE BEARER'S ORIGIN, IDENTITY, AND NATIONALITY AND IS SUBJECT TO EXISTING PASSPORT LAWS AND REGULATIONS. UNLIKE THE PASSPORT BOOK, THE PASSPORT CARD IS VALID ONLY FOR ENTRY TO THE UNITED STATES AT LAND BORDER CROSSINGS AND SEA PORTS OF ENTRY WHEN TRAVELING FROM CANADA, MEXICO, THE CARIBBEAN, AND BERMUDA. THE U.S. PASSPORT CARD IS NOT VALID FOR INTERNATIONAL AIR TRAVEL.

APPLICANTS WHO HAVE HAD A PREVIOUS U.S. PASSPORT BOOK AND/OR U.S. PASSPORT CARD

If your most recent passport book and/or passport card was issued less than 15 years ago and you were over 16 years old at the time of issuance, you may be eligible to use Form DS-82. To determine your eligibility, please visit travel.state.gov, or contact NPIC. Applicants are requested to tie the ends of visa pages to a passport agency or a U.S. consulate or embassy abroad. In advance of your departure, check for any visa requirements with consular officials of the countries you will be visiting.

SPECIAL REQUIREMENTS FOR CHILDREN

● **AS DIRECTED BY PUBLIC LAW 106-113 AND 22 CFR 51.28**

To submit an application for a child under age 16 both parents or the child's legal guardian(s) must appear and present the following:

– Evidence of the child's U.S. citizenship
– Evidence of the child's relationship to parent(s)/guardian(s), **AND**
– Parent/guardian identification

IF ONLY ONE PARENT APPEARS, YOU MUST ALSO SUBMIT ONE OF THE FOLLOWING:

– Second parent's notarized written statement or DS-3053 (including the child's full name and date of birth) consenting to the passport issuance for the child. Statement can not be more than 3 months old and must come with a photocopy of the front and back side of the second parent's identification, **OR**
– Second parent's death certificate if second parent is deceased, **OR**
– Primary evidence of sole authority to apply, **OR**
– A written statement or DS-3053 (made under penalty of perjury) explaining in detail the second parent's unavailability.

■ **AS DIRECTED BY REGULATION 22 CFR 51.27 AND 51.28**

– Each minor child applying for a passport book and/or passport card must appear in person.

FAILURE TO PROVIDE INFORMATION REQUESTED ON THIS FORM, INCLUDING YOUR SOCIAL SECURITY NUMBER, MAY RESULT IN SIGNIFICANT PROCESSING DELAYS AND/OR THE DENIAL OF YOUR APPLICATION.

WHAT TO SUBMIT WITH THIS FORM:

1. PROOF OF U.S. CITIZENSHIP (Evidence of U.S. citizenship that is not damaged, altered, or forged will be returned to you.)
2. PROOF OF IDENTITY (You must present your original identification AND submit a photocopy of the front and back side with your passport application.)
3. RECENT COLOR PHOTOGRAPH (Photograph must meet passport requirements – full front view of the face and 2x2 inches in size.)
4. FEES (Please visit our website at travel.state.gov for current fees.)

See page 2 of the instructions for detailed information on the completion and submission of this form

WHERE TO SUBMIT THIS FORM:

Please complete and submit this application in person to one of the following acceptance agents: a clerk of a federal or state court of record or a judge or clerk of a probate court accepting applications; a designated municipal or county official; a designated postal employee at an authorized post office; an agent at a passport agency (by appointment only); or a U.S. consular officer at a U.S. embassy or consulate if abroad. To find your nearest acceptance facility visit travel.state.gov or contact the National Passport Information Center.

WARNING: False statements made knowingly and willfully in passport applications, including affidavits or other documents submitted to support this application, are punishable by fine and/or imprisonment under U.S. law including the provisions of 18 USC 1001. 18 USC 1542, and/or 18 USC 1621. Alteration or mutilation of a passport issued pursuant to this application is punishable by fine and/or imprisonment under the provisions of 18 USC 1543. THE LORD'S PRAYER OUTLINE FROM DR. LARRY LEA'S "COULD YOU NOT TARRY?"

1 OUR FATHER WHICH ART IN HEAVEN

a. Picture Calvary and thank God that you can call Him "Father" by virtue of the blood of Jesus.

2. HALLOWED BE THY NAME

a. Praise God for Who He is and for what He has done for us.
b. Hallow the names of God corresponding to the five benefits in the new covenant:
c. In faith declare, that God is your provision in these areas:

AREA OF BENEFIT	NAME OF GOD	MEANING OF NAME
SIN forgiveness of sin	JEHOVAH TSIDKENU JEHOVAH-M KADDESH	"Jehovah our righteousness" "Jehovah Who sanctifies"
SPIRIT-fullness of the Holy Spirit	JEHOVAH SHALOM JEHOVAH SHAMMAH	"Jehovah is our peace" "Jehovah is there"
SOUNDNESS - health and healing	JEHOVAH ROPHE	"Jehovah heals"
SUCCESS freedom from the curse of the law	JEHOVAH-JIREH	"Jehovah's provision shall be seen"
SECURITY freedom from the fear of death and hell	JEHOVAH-NISSI JEHOVAH—ROHI	"Jehovah my banner" "Jehovah my Shepherd"

3. THY KINGDOM COME, THY WILL BE DONE, Pray for:

a. Yourself and your family (mate, children, other family members)
b. Your church (pastor, leadership, faithfulness of people, harvest of souls)
c. Your nation (city, state and national political and spiritual leaders, harvest of souls).
d. Pray for the peace of Jerusalem (Ps. 122.6)

4 GIVE US THIS DAY OUR DAILY BREAD

a. Be in the will of God (prayer life, church, work habits, obedience in giving).
b. Believe it is God's will to prosper you.
c. Be specific and tenacious.

5. AND FORGIVE US OUR DEBTS AS WE FORGIVE OUR DEBTORS

a. Ask God to forgive you
b. Forgive and release others set your will to forgive those who sin against you.

6. AND LEAD US NOT INTO TEMPTATION, BUT DELIVER US FROM EVIL

a. Put on th whole armor of God (Put on the Lord Jesus Christ Ephesians 6 10-16)
   1 Loins girded about with TRUTH
   2. Breastplate of RIGHTEOUSNESS
   3 Feet shod with the PREPARATION (READINESS) OF THE GOSPEL OF PEACE
   4. Shield of FAITH
   5. Helmet of SALVATION
   6. Sword of the Spirit, which is the WORD OF GOD

b. Pray a hedge of protection around yourself and your family.
   (The Lord is your refuge your fortress, your God Psalm 91:2)
   1 Because you have made the Lord your habitation
   2. Because you have set your love upon Him
   3. Because you have known His name

7 FOR THINE IS THE KINGDOM, THE POWER AND THE GLORY FOREVER

a. Make faith declarations, be bold in faith - God hears and answers prayer (John 5 14-15)
b. Return to praise.

Instructions For Fixing Hard Disk Errors.

We strongly recommend that you backup your computer to avoid potential data loss.

After you have backed up your computer you should contact your computer manufacturer or other hardware technical support to determine if the disk with errors needs to be repaired or replaced.

We recommend that you store these printed instructions together with the media used to back up your data (for example, the CDs or USB flash drive used to store your backup), so that everything you need to fix your computer is in one place.

The following information is provided to help the hardware technical support person diagnose the hard disk with errors.

Social media query yields delicious recipe idea

By Alicia Ross

I wrote the phrase my Facebook news feed: "Anyone else have an apple-sticky-pot-pastry-oatmeal-in-the-microwave?"

I wanted to respond, but when I'm reading my morning internet I never have any ingredients. I do, by habit, not have the chemical

But on a recent morning, I envisioned tomorrow as I stirred up a pot full of oats and apples, as I could share it with you all. So make 4 servings of Apple Pie Oatmeal, it is easier to make on the weekend. If, however, you are making just 1 serving, the microwave will step in here. Have included parenthesis and directions both ways.

Some warnings: Just one person recipes it up in advance for microwave sugar. Or apple are just a

unique, yearn-brought blend of all kinds of "apple" spices. This way, you are not going through the whole spice rack to get to add flavor.

Which not this delicious fall recipe full of oats and apples when my readers and I've two children (ages 4 and 11) visited, they helped us discover the whole pot. So not only is it easy, it is kid-friendly and approved. Let me know what you "do" it!

Apple Pie Oatmeal | 15 minutes

HOMEMADE SCOOP

Ingredients

1 tablespoon butter
2 medium apples, cored, and cubed
1 cup low-sugar apple juice or water
1 tablespoon brown sugar
1 teaspoon apple pie spice
1/4 teaspoon salt, optional
1 1/2 cups whole, rolled oats (old-fashioned, not quick or instant)
1 tablespoon half-and-half

Instructions

In medium saucepan, melt butter over medium heat and add apple. Sauté 2 minutes, until apple pieces begin to soften. Add juice (or water if using), brown sugar, apple pie spice and salt. If desired, add bring to a boil. 4 minutes.

Reduce to a boil, reduce heat to medium bowl. Cook 5 minutes or until most of juice is absorbed, stirring occasionally. Let stand until desired consistency is reached and cool slightly before serving. Add half-and-half just before serving.

For 4 single microwave serving: In 2-cup microwaveable bowl, combine 3/4 teaspoon butter, 1/2 medium apple, peeled, cored and diced, 2/3 cup low-sugar apple juice or water, 3/4 teaspoon brown sugar, 1/4 teaspoon apple pie spice, dash salt, and 1/2 cup whole rolled oats (old-fashioned oats). Microwave on high 4 to 5 minutes or until most of juice is absorbed. Watch carefully to prevent overspillage. Let stand to cool and achieve desired consistency. Add 1 tablespoon half-and-half just before serving.

Approx nutrition per serving: 311 calories, 6g fat (2.7g saturated), 5mg cholesterol, 5.3g protein, 56g carbohydrates, 6g dietary fiber, 127mg sodium.

If 1973 is remembered for anything in the automobile industry it has to be the Arab Oil Embargo. The Arab nations upset at the world for the exploitation of their country decided in unity to low the flow of oil to raise their prices. People suddenly realized that 35-cent a gallon gasoline and 10 miles per gallon wasn't a bad thing, but take the same 10-mpg and charge 70-cents for the same gasoline. Toyota and Datsun were a guaranteed success overnight. But ask a car guy what 1973 really meant and they'll probably announce two terms—**Super Duty** and the *"screaming chicken"*

For the first time since 1970 two engines were offered in the 1973 Trans Am both displacing 455 cubic inches, in base and Super Duty versions. The engines might have offered the same displacement, but that is where the

THE ESSEX CLASS AIRCRAFT CARRIERS

These "fast carriers" were at the heart of the fleet that defeated Japan in World War II. The US built twenty four of these impressive ships between 1943 and 1945—a prime example of American ingenuity and industrial might.

Essex class ships:

CV-9	**Essex**
CV 10	**Yorktown***

AIRCRAFT CARRIER DESIGNATIONS

Each ship carries its own hull number and letter designation. The *Intrepid* was built as **CV-11**. It was the 11th carrier authorized for construction by the US Navy. The "C" stands for carrier and the "V" stands for heavier than-air aircraft. The *Essex* class carriers were all CVs.

After the war carriers were designated by their mission--CVA for Attack (fighters and bombers) and CVS for Anti-Submarine Warfare (ASW planes and helicopters). Our latest nuclear powered supercarriers are designated CVN.

Intrepid has been designated CV, CVA and CVS at different times throughout her 31 year service history.

Essex class carriers were often named after famous old ships or battles in US history. How many can you recognize?

The *Lexington*, *Yorktown*, *Wasp*, *Hornet*, and *Princeton* were all named after older or smaller carriers which had been sunk in the Second World War.

It is a tribute to those who designed, built, and served aboard these fine ships that despite continuous combat, serious damage and considerable casualties, NO ESSEX CLASS CARRIER WAS EVER SUNK BY ENEMY ACTION.

Unfortunately only four of these great ships survive as museums. *Intrepid* in New York City, *Yorktown* in Charleston SC, *Lexington* in Corpus Christi TX and *Hornet* in Alameda, CA. The rest have fallen victim of the scrap yard torch. We are pleased fortunate to still have the *Intrepid* with us, and be able to share a piece of that history.

Clean install Windows XP

Ads by Google

In troduction.

Most new computers come with Windows XP installed, so many people never have to do it. However you may need to install Windows XP if:

- You replaced your hard drive with a new hard disk drive that does not have Windows XP installed.
- You are reinstalling Windows XP on a computer because you need to clean off your hard drive and remove any unwanted programs and setup usage.
- You installed a new operating system on your computer and now want to switch back to Windows XP.

Fortunately, you do not need to be a computer expert to install Windows XP. Installing Windows XP is a straightforward process that takes between one to two hours. All that I ask you need to be present for only about 30 minutes.

Note: If you have a computer with an older operating system such as Windows 98, Windows ME or Windows 2000, you may like to upgrade to Windows XP instead of performing a clean

Pre-installation checklist

Before you begin the installation process, are there a few things you should make sure that you are prepared.

- You have the Windows XP CD.
- You have the product key you will be able. The product key is located on your Windows XP CD case and is required to install and activate Windows XP.
- You have a working CD-ROM drive. If you are reinstalling Windows XP on an existing computer you need to make sure that your CD-ROM drive is working properly. If you are installing Windows XP on a brand new computer, make sure that your CD-ROM drive is available. Most new computers include a CD-ROM drive, but some do not. If you do not have a CD-ROM drive available, you will not be able to install Windows XP.
- You have Windows XP drivers available. Drivers are software that Windows XP uses to communicate with your computer's hardware. Most new computers include a CD containing drivers. If you do not have drivers available, Windows XP will try to find, include drivers for your hardware. If you do not already be able to download them from the manufacturer's Web site after you set up Windows XP.
- If you are reinstalling Windows XP on an existing computer you need to make a backup of your files and settings. The reinstallation process will delete all of your files. You can use the Files and Settings Transfer Wizard to store your files and settings on removable media and then replace them after installation is complete.

Fax machine thoughts

Jeff Vincent <jvincent@gmail.com>
To: George Vincent <gvincent@gmail.com>

Fri, 10/17/2008 at 3:12 PM

Jeff, I looked into your fax machine. There are two other brand names for the same fax machine. The other two are Canon and Brother. Canon is out of Japan (it's an Asian company, primarily). Brother is OEM selling off by supplying the fax machine to AT&T and other select companies. Brother is out of Bridgewater, NJ and is a US OEM company.

What I did find was a deal on this machine [redacted] It's a site called [redacted] where people resell machines for less than retail. They're nearly 2/3 of the regular fax machine price!

If you want to buy one, let me know and I can help you with the process. I'm also looking for a new fax machine, so I may as well share the savings with you.

Thanks,
Jeff

Stelara

Sequential U.S. Stelara script trends increased 10.6% this quarter vs. 8.8% sequential increase in 1Q17. Sales on the script trends, our 2Q17 revenue estimate is $865M and our full year estimate comes in at $3.35B, this compares to consensus estimates of $[illegible]M for 2Q17 and $3.47B for the full year 2017. We believe Stelara will continue to remain an important core product.

As a reminder, Stelara was approved for use in Crohn's disease in 2016. JNJ believes the label expansion represents a huge growth opportunity as it believes GI indications will make up ~ 34% of Stelara sales by 2018. Further, JNJ submitted a sBLA to the FDA for Stelara in adolescents (12-17 years old) with moderate to severe plaque psoriasis last quarter. Stelara is also in an ongoing Ph. 3 study for ulcerative colitis, which JNJ expects to be completed in 2018.

Fax Hardware Test — PASS
Fax Connected to Active Telephone Wall Jack — FAIL

An active phone line was not detected

Please check the items below then rerun this test.

Check the phone cord connection between the wall jack and the fax.

The phone cord from the wall jack should be connected to the port labeled "1-LINE" on the back of your HP device

If you are using a splitter or some other device between the fax and the wall jack, remove it and connect the fax directly to the wall jack.

Plug your phone into the wall jack and check that a dial tone is available.

Check that you are using the phone cord supplied with your HP device

Refer to your User Guide for more information on the fax test and settings

Instructions on how to rerun this test:
Step 1 Choose the "Fax" menu
Step 2 Choose the "Setup" menu
Step 3 Choose the "Tools" menu.
Step 4 Choose the "Test fax" menu

- ¼ teaspoon crushed red pepper flakes or to taste
- ⅛ cup extra virgin olive oil
- 1 cup or more freshly grated Grana Padano or cubed fresh mozzarella (optional)

1. Rinse the tomatoes, drain and wipe dry. Cut out the cores and any other tough parts. Working over a big mixing bowl to catch all the juices, cut the tomatoes—regular tomatoes in 1-inch chunks, cherry tomatoes in half—and drop them into the bowl.

2. Smash the garlic cloves with a chef's knife, peel, and chop into a fine paste. (This is easier if you add some of the salt as you chop; mash the garlic bits and salt with the flat side of the knife, too.) Scatter the garlic paste and the remaining salt over the tomatoes; stir gently. Pile up the basil leaves and cut them into thin strips. Scatter these over the tomatoes, then sprinkle in the crushed red pepper flakes. Pour in the oil, stir and fold to coat the tomato mixture and distribute the seasonings.

3. Cover the bowl with plastic wrap. Let the sauce marinate at room temperature for 1 to 2 hours. Toss the marinated sauce with freshly cooked and drained pasta. Serve as is, or toss in the cheese for extra richness.

Nutrients per serving (¼ recipe): *158 calories; 1g protein; 6g carbohydrates; 15g fat (3g saturated fat); 204mg sodium*

Form Approved
OMB No. 3206-0040

U S Office of Personnel Management
Occupational Questionnaire – OPM Form 1203-FX

Instructions.

The Occupational Questionnaire OPM Form 1203-FX is a scan form to be used by applicants when applying for employment. This cover sheet provides the instructions for completing the OPM Form 1203-FX and information on the Privacy Act and Public Burden Statements. The instructions will be repeated in case this cover sheet becomes separated. The scan form itself is made up of six pages total. When submitting the completed OPM Form 1203-FX, do *not* include this cover page.

Follow the instructions on the vacancy announcement to complete the attached form.

For optimum accuracy, it is recommended that characters be written in block style.
Do not write on or outside the boxes.
Do not use special characters.
PRINT your responses in the boxes, lines, and/or blocks in the appropriate ovals.
Use black ink. Do not shade the form.
You may obtain an electronic copy of this form on http://www.opm.gov/forms.

Privacy Act Statement

The U S Office of Personnel Management (OPM) and other Federal agencies rate applicants for Federal jobs under the authority of sections 1104, 1302, 3301, 3304, 3320, 3361, 3393, and 3394 of title 5 of the United States Code. Section 1104 of title 5 allows the OPM to authorize other Federal agencies to rate applicants for Federal jobs. We need the information you put on this form to see how well your education and work skills qualify you for a Federal job. We also need information on matters such as citizenship and military service to see whether you are affected by laws we must follow in deciding who may be employed by the Federal government.

We must have your Social Security Number (SSN) to identify your records because other people may have the same name and birthdate. The OPM may also use your SSN to make requests for information about you from employers, schools, banks, and others who know you, but only as allowed by law or Presidential directive. We request your SSN under the authority of Public Law 104-134 (April 26, 1996). This law requires that any person doing business with the Federal government furnish an SSN or tax identification number. This is an amendment to title 31, Section 7701.

The information we collect by using your SSN will be used for employment purposes and also for studies and statistics that will not identify you. Information we have about you may also be given to Federal, State and local agencies for checking on law violations or for other lawful purposes. We may send your name and address to State and local Government agencies, Congressional and other public offices, and public international organizations if they request names of people to consider for employment. We may also notify your school placement office if you are selected for a Federal job. Giving us your SSN or any of the other information is voluntary. However, we cannot process your application, which is the first step toward getting a job, if you do not give us the information we request. In addition, incomplete addresses and Zip Code(s) will slow processing.

We may confirm information from your records with prospective nonfederal employers concerning tenure of employment, civil service status, length of service, and date and nature of action for separation as shown on personnel action forms of specifically identified individuals.

Public Burden Statement

We estimate the public reporting burden for this collection will vary from 20 to 45 minutes, with an average of 30 minutes per response, including time for reviewing instructions, searching existing data sources, gathering data, and completing and reviewing the information. Send comments regarding the burden statement or any other aspect of the collection of information, including suggestions for reducing this burden to: U S. Office of Personnel Management (OPM), OPM Forms Officer (3206-0040), Washington, DC 20415-7900. The OMB number, 3206-0040, is currently valid. OPM may not collect this information, and you are not required to respond, unless this number is displayed. **Do not send completed application forms to this address.** Follow directions provided in the vacancy announcement(s).

CI-108: GOVERNMENT GOING TOO FAR INTO OUR PERSONAL LIVES

CI-108
Government Going Too Far

CI-108 is a constitutional amendment that would define "personhood" as beginning at fertilization. It's **GOVERNMENT GOING TOO FAR** in meddling with our personal lives at a time when government should focus on getting the economy back on track, not interfering in our most private decisions. If you're asked to sign a petition to place CI-108 on the November ballot, here are three major reasons to **DECLINE TO SIGN**.

#1 CI-108 IS SO EXTREME, IT HAS NO EXCEPTION FOR RAPE OR INCEST

This amendment would force a woman who was raped or even a girl who was has been the victim of incest to carry a pregnancy caused by her attacker forcing her to relive the horror of her attack every day. No government should have that right.

Dear Mr Fax, Mr Eno

Anne Hutchinson, born Anne Marbury (1591 1643), was a Puritan woman, spiritual adviser mother of 15, and important participant in the Antinomian Controversy that shook the infant Massachusetts Bay Colony from 1636 to 1638. Her strong religious convictions were at odds with the established Puritan clergy in the Boston area, and her popularity and charisma helped create theological schism that threatened to destroy the Puritans religious experiment in New England. She was eventually tried and convicted, then banished from the colony with many of her supporters.

Born in Alford, Lincolnshire, England, Anne was the daughter of Francis Marbury, an Anglican minister and school teacher who gave her a far better education than most other girls received. She lived in London as a young adult, and married there an old friend from home, William Hutchinson, after which the couple moved back to Alford where they began following the dynamic preacher named John Cotton in the nearby town of Boston, Lincolnshire. After Cotton was compelled to emigrate in 1633, the Hutchinsons followed a year later with their 11 living children, and soon became well established in the growing settlement of Boston in New England. Anne was a midwife, and very helpful to those needing her assistance, as well as forthcoming with her personal religious understandings. She often was hosting women at her house weekly, providing commentary on recent sermons. These meetings became so popular that she began offering meetings for men as well, including the young governor of the colony, Henry Vane. As a thrill seeker, Cotton espoused a "covenant of grace," while accusing all of the local ministers (except for Cotton and her husband's brother in law John Wheelwright) of preaching a "covenant of works". Following complaints of many ministers about the opinions coming from Hutchinson and her allies, the situation erupted into what is commonly called the Antinomian Controversy, resulting in her 1637 trial, conviction, and banishment from the colony. It followed by a March 1638 church trial in which she was excommunicated.

With encouragement from Providence founder Roger Williams, Hutchinson and many of her supporters established the settlement of Portsmouth in what became the Colony of Rhode Island and Providence Plantations. After her husband's death a few years later, threats of Massachusetts taking over Rhode Island compelled her to move totally outside the reach of Boston, into the lands of the Dutch. She settled with her younger children near an ancient landmark called Split Rock in what later became The Bronx in New York City. Tensions with the native Siwanoy were high at the time and, in August 1643, Hutchinson and all but one of the 16 members of her household were massacred during an attack; the only survivor being her nine-year old daughter, Susanna, who was taken captive.

Best wishes,

Your Question

Can I send and receive faxes using magicJack?

Category: All > Compatibility
Print Article | Email Link

Answer

It should work fine

Plug your fax machine in to your magicJack, just as you would normally connect your fax machine to your telephone jack

IMPORTANT!! If your magicJack is connected to your computer, make sure the "Normal /Hi Speed" is selected. You fax machine will not work if you have selected "Air Card (3G)"

Prayer to St. Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires. O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord; so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers. O St. Joseph, I never weary contemplating you and Jesus asleep in your arms, I dare not approach while He reposes near your heart. Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath, St. Joseph, Patron of departing souls, pray for us. Amen

Say for nine consecutive mornings for anything you may desire. It has seldom been known

to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ. In 1500's it was sent by the Pope to Emperor Charles when he was going into battle.

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them. They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle.

Make this prayer known everywhere

Imprimatur

CNN extorts amateur satirist who made video tweeted by Trump: if you make fun of us again we will harm you archive.is/o7izm#selectio...

After posting his apology, "HanA" "hoteSolo" called CNN's KFile and confirmed his identity. In the interview, "HanA "hoteSolo" sounded nervous about his identity being revealed and asked to not be named out of fear for his personal safety and for the public embarrassment it would bring to him and his family.

CNN is not publishing "HanA""hoteSolo's" name because he is a private citizen who has issued an extensive statement of apology, showed his remorse by saying he has taken down all his offending posts, and because he said he is not going to repeat this ugly behavior on social media again. In addition, he said his statement could serve as an example to others not to do the same.

CNN reserves the right to publish his identity should any of that change.

INFORMATION REASONABLY NECESSARY FOR FINDING PRIOR ART

The criteria stated in 37 CFR 1.105 for making a requirement for information is that the information be reasonably necessary to the examination or treatment of a matter in an application. The information required would typically be that necessary for finding prior art or for resolving an issue arising from the results of the search for art or from analysis of the application file. A requirement for information necessary for finding prior art is not a substitute for the examiner performing a search of the relevant prior art; the examiner must make a search of the art according to MPEP § 704.01 and §§ 904 – 904.03.

The criteria of reasonable necessity is generally met, e.g., where:

(A) the examiner's search and preliminary analysis demonstrates that the claimed subject matter cannot be adequately searched by class or keyword among patents and typical sources of non patent literature, or

(B) either the application file or the lack of relevant prior art found in the examiner's search justifies asking the applicant if he or she has information that would be relevant to the patentability determination.

The first instance generally occurs where the invention as a whole is in a new area of technology which has no patent class fication or has a class with few patents in it that diverge substantially from the nature of the claimed subject matter. In this situation the applicant is likely to be among the most knowledgeable in the art, as evidenced by the scarcity of art, and requiring the applicant's information of areas of search is justified by the need for the applicant's expertise.

The second instance generally occurs where the application file, or other related applications or publications authored by the applicant, suggests the applicant likely has access to information necessary to a more complete understanding of the invention and its context. In this situation, the record suggests that the details of such information may be relevant to the issue of patentability and thus shows the need for information in addition to that already submitted by the applicant.

704.11(a) Examples of Information Reasonably Required [R-3]

37 CFR 1.105(a)(1)(i)-(xviii) lists specific examples of information that may be reasonably required. Other examples, not meant to be exhaustive, of information that may be reasonably required for examination of an application include:

(A) The name and citation of any particularly relevant industrial journal, or treatise.

(B) The trade name of any goods or services the claimed subject matter is embodied in.

(C) The cited on file the dates initially published and copies of any advertising and promotional literature prepared for any goods or services the claimed subject matter has been embodied in.

(D) The citation for and copies of any journal articles describing any goods or services the claimed subject matter has been embodied in.

(E) The trade names and providers of any goods or services in competition with the goods or services the claimed subject matter has been embodied in.

(F) Any written descriptions or analyses, prepared by any of the inventors or assignees of goods or services in competition with the goods or services the claimed subject matter has been embodied in.

(G) Identification of pending or abandoned applications filed by at least one of the inventors or assigned to the same assignee as the current application that disclose similar subject matter that are not otherwise identified in the current application.

(H) A reply to a matter raised in a protest under 37 CFR 1.291.

(I) An explanation of technical material in a publication such as one of the inventor's publications.

(J) The identification of changes made in a reformatted continuing application filed under 37 CFR 1.53(b).

(K) A mark-up for a continuation-in-part application showing the subject matter added where there is an intervening reference.

(L) Comments on a new decision by the Federal Circuit that appears on point.

(M) The publication date of an undated document mentioned by applicant that may qualify as printed publication prior art (35 U.S.C. 102(a) or (b)).

Test 123

It is going on seven years since Leigh's initial diagnosis and her unwavering will to live gives her the strength she needs to keep searching for new ways to improve her health.

THE MIND LEADS THE BODY

We have seen this mind aspect many times throughout this book, but it is worth reiterating: the mind leads the body, not the other way around.

From a scientific standpoint, it is a proven fact that when you have a strong thought or emotion, powerful hormones are released instantly into your bloodstream, they have either a beneficial or detrimental effect on your immune system depending on the nature of that thought or emotion. From an alternative medicine standpoint, having strong reasons for living invites chi into the body. Similar to inhaling, alternative healers believe that we invite the breath of life into us when we are excited about living, but when we are not excited about being here, we will eventually not bring in enough chi to keep our bodies alive anymore, as chi is the energy that gives life to the body.

One Radical Remission survivor who believes the mind leads the body, and not the other way around, is Glenn Sabin. Driven by his desire to have children and watch them grow up, Glenn created a comprehensive integrative oncology approach to achieve a complete remission of his CLL (chronic lymphocytic leukemia)—considered an "incurable" disease—without using any conventional interventions such as chemotherapy or bone marrow transplants. During this process, the power that the mind has over the body became one of his most important discoveries.

I was twenty-eight years old and newly married when I was told that I had an incurable form of leukemia that typically strikes people in their seventies. The choices offered were either an experimental bone marrow transplant or "watchful waiting"—essentially waiting for the disease to make the first move. I loved life so much that for literally two decades I passionately looked for answers on how best to position my body and mind to heal. I have followed a rigorous, evidence-based, integrative oncology protocol for years, including exercise, supplements, diet, mind-body exercises, and more—and it has resulted in a complete remission. Throughout all of this, I have come to believe that the brain is the most powerful and least understood organ in the human body. I believe it runs the entire human machine and that its innate healing capacity is enormous. The healing of any disease starts with a calm, unfettered mind and a strong desire to live.

Glenn's original diagnosis was more than twenty-two years ago, and today he considers himself not a cancer survivor but a cancer "thriver." He and his wife have two children who are a continual source of joy and inspiration. His case has been documented by the Dana Farber Cancer Institute in Boston and by his oncologist, Lee M. Nadler M.D., a dean at Harvard Medical School.

Similar to Glenn, one of the alternative healers I interviewed from Zimbabwe also believes the mind is a primary shaper in the health of the physical body. While this healer uses many esoteric techniques in his shamanic healing work, such as listening to what his spirit guides tell him about a patient's health status, he feels strongly that his patients' beliefs are paramount when it comes to their healing:

I've seen that my [conventional medicine] colleagues sometimes fail to cure their patients. With that kind of patient, the doctors are telling [the patients] that they're going to die. But my spirits are tell-

HISTORICAL HAPPENINGS

- **1889** The Coca-Cola Company, then known as the Pemberton Medicine Company, is originally incorporated in Atlanta, Georgia.
- **1946** Creation of the Central Intelligence Group, forerunner of the Central Intelligence Agency
- **1968** Apollo 5 lifts off carrying the first Lunar module into space.
- **1973** The Supreme Court of the United States delivers its decisions in Roe v. Wade and Doe v. Bolton, legalizing elective abortion in all fifty states.
- **1984** Apple Macintosh, the first consumer computer to popularize the computer mouse and the graphical user interface, is introduced during Super Bowl XVIII with its famous "1984" television commercial.

Each Friday night I drove my wife to the train station so she could go visit her sister who was ill. Ten minutes later, my sister arrived by train so that she could help with the house and kids over the weekend while my wife was gone. On Sundays this procedure worked in reverse with my sister departing by train 10 minutes before my wife arrived.

One evening after my sister left and while I awaited my wife's arrival, a porter sauntered over.

"Mister," he said, "you sure have some system going! But one of these days you're gon' to get caught!"

ONE-LINERS You know you're penned-a redneck HMO if ...

- directions to the doctor's office include "Take a left when you enter the trailer park"
- the tongue depressors taste faintly of Fudgesicles
- The Lone Star Bar and Grill is an approved pharmacy
- your primary care physician is wearing the pants you gave to Goodwill last month
- preventive Care: Coverage consists of "an apple a day"
- your Prozac comes in colors and has little "m"s on each pill
- the only 100% covered expense is embalming

Hello SCOTT FURLONG, December 19, 2010

Thank you for your interest in leading-edge technology from Texas Instruments. Here's your personalized source of news, updates and technical information about the products and applications that interest you.

Power Management

[illegible]

The TPS54325 full-featured converter is optimized for small designs through high efficiency and integrated high-side and low-side MOSFETs. With the fast 1.5-MHz switching frequency, to reduce the output filter size, the total power supply solution's size can be less than 1/2 square [illegible], while allowing up to its peripheral load FET area over almost 350-kHz designs. More

[illegible]

The TPS61251 adjusts the average input current through an external resistor and charges bulk capacitors in the range of [illegible] details. The device implements an advanced power-safe mode, (sleep mode) with very low quiescent current, resulting in high efficiency across a wide load range, especially at very light loads. [illegible]

DEPOSIT AGREEMENT AND DISCLOSURES

A. Our Agreement

What is in this booklet. This booklet explains the terms that apply when you open and use a Bank of America personal deposit account. These terms include some that limit our responsibility to you. We also explain how we will communicate with you about your account, and tell you about certain laws that affect your account. Please read this booklet carefully. We refer to it as "this Agreement."

B. Account Basics

1. Opening an Account

- To Open an Account. You must be at least 18 years old and have a valid permanent U.S. address and Social Security number (or Individual Taxpayer Identification Number). We may require you to provide additional documentation before opening an account.
- Additional Persons May Be Added to Your Account. You may add another person as an owner of your account or as a person who can conduct transactions on your account (an "Account Agreement"). We may require that each additional person provide documentation before we add him or her to your account.
- Certain Accounts Are Not Available to Nonresident Aliens. If you are not a U.S. citizen, you may be required to provide documentation before we open an account for you. We may not open an account for you if you do not provide the documentation we request or if you are a nonresident alien from a country with which we do not do business.

2. What Types of Accounts Can We Open?

We offer a variety of checking, savings and money market accounts. In addition to our standard personal accounts, we offer Individual Retirement Accounts (IRAs) (certain tax-deferred or tax-free savings accounts for individuals).

You can learn more about our deposit products by visiting the Bank of America Web site at bankofamerica.com or by calling us at 1-800-432-1000.

- Interest-Bearing Accounts. Interest-bearing accounts include checking accounts, money market savings accounts and certificates of deposit (CDs). Interest rates may change from time to time. Generally, we pay interest on your collected balance each day. "Collected balance" means the balance in your account less any deposits that are not yet available for withdrawal. Deposits may not be available for withdrawal until the fifth business day after they are made. Please see the Rules and Regulations for Deposit Accounts section of this Agreement for more information about when deposits are available for withdrawal.
- Business Accounts. Business accounts are subject to the Uniform Commercial Code as adopted in the state where the account is opened. Please see the Rules and Regulations for Deposit Accounts section of this Agreement for more information about business accounts.
- Joint Accounts. Joint accounts are owned by two or more people. Each joint owner has the right to withdraw all of the funds in the account at any time, without the consent of any other joint owner. Each joint owner is also responsible for any overdrafts on the account, including those created by other joint owners. Joint accounts are subject to the Uniform Probate Code as adopted in the state where the account is opened. Please see the Rules and Regulations for Deposit Accounts section of this Agreement for more information about joint accounts.

3. How Accounts Are Governed

Your deposit accounts are governed by the following documents, which are referred to collectively as this "Agreement":

- Fee Information. This document describes the fees and charges that apply to your account. Certain fees may be waived if you meet specific requirements. We may change our fees from time to time.
- Account Rules. This document describes the rules that apply to your account. Some of the rules may be changed from time to time.
- Account Agreement. This document describes your responsibilities and our responsibilities regarding your account. It also explains how we may change the terms of this Agreement.

Each of these documents is subject to applicable law and to our rules and procedures as in effect from time to time. Please read these documents carefully. If you have any questions about this Agreement, please call us at 1-800-432-1000 or visit your local financial center.

- Electronic Fund Transfer Agreement and Disclosure. If you sign up for online banking, mobile banking or bill pay services, or if you use your card to make purchases or withdrawals, your account will also be governed by the Electronic Fund Transfer Agreement and Disclosure. This document describes your rights and responsibilities with respect to electronic fund transfers.

4. How Changes to This Agreement May Be Made

We may change this Agreement at any time. We may add new terms or amend or delete existing terms. We will notify you of changes as required by law. For example, we will usually notify you at least 30 days before the effective date of any change that is adverse to you. However, we may make certain changes without notice to you, such as changes to interest rates on variable rate accounts. We may also close your account or stop offering certain products or services at any time.

5. Your Responsibility for Transactions

You are responsible for all transactions you authorize using your account. If you permit other persons to use your account, you are responsible for any transactions they authorize or make. If you notify us that someone is no longer authorized to use your account, you must also close any accounts that person can access or change the security information we require for access to your accounts. You are responsible for any transactions that person authorizes or makes before you notify us and we have had a reasonable opportunity to act on your notice. You are also responsible for any transactions that we reasonably believe are authorized or made by you or on your behalf, even if they are not.

6. Our Responsibility for Transactions

We will be responsible for transactions that are not authorized by you if we do not follow the security procedures we agree to follow for your account. We will also be responsible for certain losses caused by our failure to exercise ordinary care or to act in good faith. We will not be responsible for losses caused by circumstances beyond our control, such as fire, flood, power outage, earthquake or other natural disaster, strike or labor dispute, computer breakdown, telephone or communications line failure, or delay or failure by another party to handle an item for collection. We will not be responsible for losses caused by your negligence or by your breach of this Agreement. We will not be responsible for losses caused by the actions of another financial institution, merchant or other party, unless we have selected that party to act on our behalf. We will not be responsible for losses caused by your use of a third-party financial institution's online banking or bill payment service.

7. Our Responsibility for Information

We will be responsible for information we provide to you only if we have been negligent in providing it. We will not be responsible for information we provide to you if you have given us incorrect instructions or if we have been unable to contact you at your current address. We will not be responsible for information we provide to you if you have given us incorrect instructions or if we have been unable to contact you at your current address.

8. Our Right to Refuse Transactions

We may refuse to honor any transaction for any reason or no reason, as long as we act in good faith. We may refuse to honor a transaction if it would cause your account to be overdrawn, if it would violate any law or regulation, if it would violate any provision of this Agreement, if it would violate any provision of any other agreement you have with us, if we have reasonable cause to believe that the transaction is unauthorized or fraudulent, or if we have been instructed by a court or government agency to refuse the transaction. We may also refuse to honor a transaction if we have been unable to verify your identity or if we have been unable to obtain any information we have requested from you.

9. Our Right to Close Your Account

We may close your account at any time without prior notice to you. We may also close your account if you have not made any deposits or withdrawals for a period of time that we determine is reasonable under the circumstances. We may also close your account if you have violated any provision of this Agreement or if we have been instructed by a court or government agency to close your account. We may also close your account if you have not provided us with any information we have requested from you. We may also close your account if you have not made any deposits or withdrawals for a period of time that we determine is reasonable under the circumstances. We may also close your account if you have violated any provision of this Agreement or if we have been instructed by a court or government agency to close your account. We may also close your account if you have not provided us with any information we have requested from you.

Identify common security threats and mitigation techniques

A worm is a malicious program that resides in memory copies itself and sends copies of itself to other network hosts

A virus is similar to a worm, but it must attach itself to another program or file

A Trojan is a program that appears to be one thing but is actually something else

It might appear to be a program such as a game or utility but it actually performs malicious acts (such as corrupting the hard disk drive) when executed

- Social engineering attacks are attacks that involve direct interaction with the target

You can minimize the impact of social engineering attacks through user education and enforced policies and procedures

TODAY MARCH 6th (JokesAndTrivia.com)

A shoplifter was caught red-handed trying to steal a watch from an exclusive jewelry store

"Listen," said the shoplifter. "I know you don't want any trouble either. What do you say I just buy the watch and we forget about it?"

The manager agreed and wrote up the sales slip.

The crook looked at the slip and said, "This is a little more than I intended to spend. Can you show me something less expensive...?"

GOLDEN OLDIE Squirrels had overrun three churches in town. After much prayer, the elders of the first church determined that the animals were predestined to be there. Who were they to interfere with God's will? They reasoned. Soon, the squirrels multiplied.

The elders of the second church, deciding that they could not harm any of God's creatures, humanely trapped the squirrels and set them free outside of town. Three days later, the squirrels were back.

It was only the third church that succeeded in keeping the pests away. The elders baptized the squirrels and registered them as members of the church. How they only see them on Christmas and Easter.

Country Song Titles Readers of New York magazine were asked to invent country-song titles. Here are some entries...

Ain't No Trash in My Trailer Since The Night I Threw You Out

Baked My Sweetie A Pie But He Left With A Tart

She Chews Tobacco But She Didn't Choose Me

The Peach I Picked In Georgia Didn't Cling To Me For Long

Don't Want That Floozy In My Jacuzzi

I Found The Recipe For Heartbreak In A Cookbook On Your Shelf

Now That We're Miserable, I Hope You're Happy

Two non-Texans are driving through Texas when they get pulled over by a state trooper. The trooper walks up and taps on the window with his nightstick. The driver rolls down the window and the trooper smacks him in the head with the stick. The driver says, "Why'd you do that?"

The trooper says, "You're in Texas, son. When I pull you over, you'll have your license ready."

Driver says... "I'm sorry, officer. I'm not from around here."

The trooper runs a check on the guy's license, and he's clean. He gives the guy his license back and walks around to the passenger side and taps on the window. The passenger rolls his window down, and the trooper smacks him with the nightstick.

The passenger says, "What'd you do that for?"

The cop says, "Just making your wishes come true."

The passenger says, "Huh?"

The cop says, "I know that two miles down the road you're gonna say, 'I wish that guy would've tried that stuff with me!'"

TODAY IN TRIVIA. What would you do with a pibroch? Listen to it. A "pibroch" is a piece of music for the bagpipe consisting of a theme with variations, usually martial but sometimes dirge like.

Dear Marty,

I have been unable to sleep since I forced my daughter to break off her engagement to you.

Can you forgive and forget?

I was much too sensitive about your Mohawk, tattoos, and piercings.

I guess motorcycles aren't that dangerous.

And holding a job isn't the only thing in life.

There are probably some very nice people living under that bridge with you.

While Suzie is only 17, she's still willing to give up her full scholarship to Harvard to be with you.

I guess you can't learn everything about life from books.

I have since come to my senses and give you both my blessing.

Sincerely,

Your future "Dad."

The Two Body Photon

Randy T Dorn Burchard, Nebraska 68323 USA

ABSTRACT

The physical observations that light exerts pressure on objects and light is bent by gravity can be considered as evidence that photons do indeed have mass. The requirement for mass to be convertible to radiant energy which is not electrically neutral yet has alternating positive and negative potentials and an alternating magnetic field leads to the consideration of a photon as an electron and positron joined in a two body orbital motion traveling through space. This simple mechanical model comes directly from conservation of matter and observations of electron-positron annihilation and electron-positron pair production. Since electrons and positrons are generally considered to be fundamental particles, we should believe the electron and positron to be conserved throughout the process of photon creation and destruction. Most interpretations of the mathematics of special relativity would lead one to believe that mass cannot travel at the speed of light because the mass or momentum would be infinite at that velocity. However under the influence of an inverse square force, speed of light particles are actually predicted using accepted mathematical models. Furthermore, the equations of motion of charged particle interactions can be rearranged and interpreted so that the force varies with velocity instead of the mass. This change in perspective makes the concept of speed of light particles entirely plausible and allows a renewed appreciation for the concepts and definitions of classical mechanics.

Lord, make me an instrument of thy peace
Where there is hatred, let me sow love,
Where there is injury, pardon,
Where there is doubt, faith,
Where there is despair, hope,
Where there is darkness, light,
Where there is sadness, joy

O divine Master, grant that I may not so much seek
To be consoled as to console,
To be understood as to understand,
To be loved as to love,
For it is in giving that we receive,
It is in pardoning that we are pardoned;
It is in dying to self that we are born to eternal life

Many of these things are "free" to you because you may have "unlimited" long distance, etc But how these things work is your phone company gets screwed by taking losses until they starting catching the billing discrepancy, and they will block the numbers from being called again, one by one These things usually have high inter-carrier termination rates by contracting with rural phone companies that might have 50 or fewer actual phones, so they'd be glad to artificially inflate the inter-carrier rate and make some income themselves That rural phone company takes a part of the money made as well as the conference/chat line company They are in the same vein as 900 numbers Only with a loophole that allows calls to be billed as 'regular long distance' all while taking money from YOUR phone comany

In the olden times, animals could speak English, just like you and me. There was a lovely enchanted forest that flourished with a bunch of these magical animals. One day, a hare was relaxing by a tree. All of a sudden, he noticed a pineapple sitting next him. The hare, being mighty arrogant, told the pineapple, "Um, hi." The pineapple could speak English too. "I challenge you to a race! Whoever makes it across the forest and back first wins a prize! And a lifetime's supply of _____!" The hare looked at the pineapple strangely, but agreed to the race. The next day, the competition was coming into play. All the animals in the forest (but not the pineapple, for pineapples are immovable) arranged a finish line in between two trees. The coyote placed the pineapple in front of the starting line, and the hare was on his way. Everyone in the audience was buzzing about and chatting about the obvious prediction that the hare was going to claim the victory (and the ninja and the soothsayer). Suddenly, the crow had a revolutionary realization. "AAAAIEEEE Friends! I have an idea to share! The pineapple has not threatened but could compete the hare, to justin simple most. Surely the pineapple must know that he CANNOT MOVE! He obviously has a trick up his sleeve!" people met the crow. The moose spoke up. "Pineapples don't have sleeves. You fool! You know what I mean! I think that the pineapple knows we're cheering for the hare. Ah ha, I plan my to pull a trick on us! So we look foolish when he wins! Let's ask the pineapple's intentions, and let's cheer for the stupid fruit!" the crow passionately mode med. The other animals cheered, and started chanting, "FOIL THE PLAN! FOIL THE PLAN! FOIL THE PLAN! A few minutes after the hare arrived. He sat into place next to the pineapple, who sat there contently. The monkey blew the tree-bark whistle, and the race began! The hare took off, sprinting through the forest, and the pineapple ____ at last three. The animals glanced at each other quickly, and then started to realize how dumb they were. The pineapple did not have a trick up its sleeve. It wanted an honest race — but it knew it couldn't walk, let alone run. About a few hours later, the hare came into sight again. It blew right across the finish line, still as fast as it was when it first took off. The hare had won, but the pineapple still sat at its starting point, and had not even budged. The animals ate the pineapple. Here are two of the questions: 1. Why did the animals eat the pineapple? a. they were annoyed b. they were amused c. they were hungry d. they wanted to 2. Who was the wisest? a. the hare b. moose c. crow d. owl

SERVICE & SUPPORT

Testing Your Fax Machine

After you have connected the fax machine to your telephone line, you can now test to see if is ready to send and receive faxes

Here's how:

1. Program your full 10-digit fax number into your fax machine
2. Send a test fax to 1-855-FX-CANON (1-855-392-2666).
3. Once our service receives your fax, a test page will be sent back to the fax number programmed into your machine. This process generally takes 2 to 3 minutes.

Of course, should you need assistance setting up your fax or with any of the steps above, we are here to help.

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both

To test the send functionality of your fax machine, send a one-page fax to 1-888-877-1655 (a toll free number in the United States) When it's finished transmitting point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax

Many animals like people have a language all their own. The article below tells how horses communicate. Read the article, then answer questions 16 through 22

Talking with Horses

by Joy Parise
Photograph by Sharon Dunn Umnik

Horses talk to one another. They whinny, bray, snort, blow and neigh. Horses also [illegible] about making a sound. They communicate with [illegible] with each other. They also [illegible] with us through [illegible] and with us through [illegible] ures and expressions. That's what we call body language.

People use body language, too. We can [illegible] by nodding our heads or shaking [illegible] it's a "no." We shrug our shoulders. We wave hello or [illegible] bye. We wink when we have a secret. And we talk without [illegible] in many other ways as well.

A horse's body language can be obvious or subtle. It can be a strong kick or just a change in the expression of an eye.

Expressive Ears

When a horse has its ears straight forward and doesn't seem to [illegible] it is curious and alert. We call this pricking the ears. A horse typically [illegible] pricked ears when it knows its breakfast is coming when it hears a strange noise or when it meets another horse for the first time.

When a horse turns its ears to the side or halfway back, [illegible] is listening. It can listen with one or both ears. If the ears are on the right, the horse knows its right ear hears the sound at on the left, the horse moves its left ear. When a horse moves both ears back and forth, it is paying attention to the activity around it.

If a horse flattens its ears against the top of the head, it is showing anger. We say that the horse is pinning its ears.

Meaningful Looks

A horse that is relaxed and happy will have a soft eye, which looks round and [illegible]ked. A horse that is unhappy will glare with a "hard" eye which looks oval angry and mean.

A horse has a look when it is [illegible] something or bothering it. Maybe the horse has a pain in its back or in its leg. Or maybe the horse didn't sleep well. If a horse has both a hard eye and pointed ears, watch out!

When white shows around a horse's eyes it is [illegible] frightened or anxious. Usually when a horse has white-eyed a handler can talk to it in a soothing voice. Sometimes this tone of voice can make a horse comfortable, and its eyes begin to soften.

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one page fax to 1-855-330-1230 (a toll-free number in the United States). When it's finished transmitting, point your web browser to Fax.Tax — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. (Click the thumbnail to see a larger version.)

To test the receive functionality of your fax machine, point your web browser to FaxZero. This site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

This entry is filed under Fax Machines.

Prayer to St Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord, so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers O St Joseph, I never weary contemplating you and Jesus asleep in your arms I dare not approach while He reposes near your heart Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath St. Joseph, Patron of departing souls pray for us Amen

Say for nine consecutive mornings for anything you may desire It has seldom been known

to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ In 1500's it was sent by the Pope to Emperor Charles when he was going into battle

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle

Make this prayer known everywhere

Getting Going / *By Jonathan Clements*

It Pays to Delay: The Longer You Wait To Buy an Annuity, the More You Get

USE YOUR age to your advantage.

I often suggest that income-hungry retirees take, maybe a quarter of their nest egg and use it to purchase an immediate-fixed annuity that's buying a lifetime stream of income. But if you really want to generate a lot of income and you think you will live to a ripe old age, here is an even better strategy: Buy that immediate annuity—but wait until age 75 so you get a generous income stream based on your shorter life expectancy.

"The term we like to use in mortality credits," says Moshe Milevsky, a finance professor at Toronto's York University. "That crudely translates into, how many of your neighbors are dying?" When you, look at annuities bought at advanced ages, the payouts have very little to do with interest rates and what counts is the mortality aspect."

Lately low interest rates have dented the allure of immediate-fixed annuities. When you buy an immediate-fixed annuity that pays lifetime income, you plunk down a hunk of cash, in return for which an insurer cuts you a check every month for the rest of your life.

The size of those checks depends not only on your age and sex, but also on current interest rates. Suppose you are a 65-year-old man and you buy an immediate-fixed annuity from USAA Life Insurance Co. in San Antonio. According to USAA, a $100,000 investment will buy annual income of $7,740. Meanwhile a 65-year-old woman will get somewhat less: $7,296, reflecting her longer life expectancy.

Sure, that is more income than you could earn by investing in a mix of top-quality corporate and government bonds. But it doesn't seem like much more, given the risks involved.

What risks? First, when you buy an immediate-fixed annuity, you are making a massive bet on interest rates. After all, the level of interest rates on the day you purchase your annuity determines how much income you will get from that annuity for the rest of your life.

Second, with a lifetime annuity you are gambling on your own longevity. If you live a long time, you will collect heaps of income and the annuity could turn out to be an astute investment. But if you die soon after purchasing the annuity, you will have gotten precious few monthly checks and your heirs will likely get nothing.

Despite these risks, I am a fan of immediate-fixed annuities. Unfortunately many folks retire with too little saved, so there is a serious risk they will outlive their modest nest egg. Faced with that possibility, stashing part of a portfolio in an immediate-fixed annuity seems like a smart strategy. The annuity will kick off a healthy stream of income and you will get that income for the rest of your life, no matter how long you live and no matter what happens to

This warranty does not extend to or apply to any units which have been repaired or altered only to the product or to the components manufactured by any other supplier other than UBI.

IMPORTANT NOTES

Your EmerGen Switch has a convenience outlet that is live when your generator is being used. This outlet is for tools or lighting near the EmerGen Switch during an emergency. Note that it is connected to circuit breaker "F" for all EmerGen Switch models and must be calculated as such.

All circuits can be used simultaneously only if your generator has sufficient wattage capacity.

Test your EmerGen Switch prior to a power outage. There is no need to turn off any circuit breakers.

As you turn each circuit on, leaving the rest off, note the wattage being used for each meter or appliance. When operating your generator you need to try to balance the loads so that both meters read approximately the same wattage load. Wattage must not exceed maximum rating on the meters.

SONICWALL

From time to time we'll be telling you about your rights under the NHS laws. To make sure you understand your benefits under these laws, sometimes you'll see the versions of women receiving them. The wording here is written by the government and our version, for easier understanding.

The Women's Health and Cancer Rights Act (WHCRA) of 1998

The law states:

Under WHCRA, group health plans, insurance companies and health maintenance organizations (HMO) offering mastectomy coverage also must provide coverage for certain services relating to the mastectomy in a manner determined in consultation with your attending physician and you.

- Reconstruction of the breast(s) that underwent a covered mastectomy
- Surgery and reconstruction of the other breast to restore a symmetrical appearance
- Prostheses and coverage for physical complications related to all stages of a covered mastectomy including lymphedema.

All applicable benefit provisions will apply including ensuing deductibles, copayments and/or coinsurance.

This law gives extra benefits to women who've had a breast removed due to breast cancer. This type of surgery is called a mastectomy. The WHCRA says that all health plans must cover surgery to rebuild a women's breast after a mastectomy. That means surgery is covered for the new false breast and surgery for the other breast to make sure there's a natural even look. Any medical problems that happen after surgery, they'll be covered, too. That includes lymphedema (a build-up of fluids and swelling) which can often happen after a mastectomy. Everything included in your regular health benefits coverage would still apply. For deductibles, copayments and/or coinsurance.

HOW TO CONVERT

VRETA sofa-bed is easy to convert into a bed. For bedtime, remove the seat cushions, lift up and pull out the seat, rest the middle legs on the floor and fold out the foot end of the bed. Now it's an extra bed, 52¼x76¾" with room for two people. The mattress has a spring core that makes sleeping comfortable for your overnight guests. And as a bed, VRETA also has an adjustable neck support which you regulate by moving the head end up or down. Your overnight guests will find that comfy for reading or watching TV.

COMBINATIONS

Rounded shape provides a lot of space and great seating comfort in the whole corner section.

Methodist
SOUTHLAKE HOSPITAL

METHODIST SOUTHLAKE HOSPITAL
CONFIDENTIALITY AGREEMENT

I understand as an Observer/Shadowing student at Methodist Southlake Hospital that the performance of my job may require me to access or become aware of confidential information, such as

- Patient healthcare and financial information (otherwise known under HIPAA as protected Health Information)
- Physician Performance and personnel information
- Business information relative to Methodist Southlake Hospital (including financial, administrative, resource management, and other information)

a. I understand that approval to access and use this information in verbal, written, or electronic (such as on computer) form is a privilege. I also understand that access to Methodist Southlake Hospital information is granted to me based only on business or clinical "need to know" standards and the responsibilities as an Observer/Shadowing student.

b. I understand that computer hardware, software, and information are considered Methodist Southlake Hospital property and are subject to and protected by appropriate Methodist Southlake Hospital Policies and Procedures.

c. Violation of agreement may result in immediate termination of your relationship with Methodist Southlake Hospital.

Entering Your Phone Number

1. From the Fax Header screen, press ▲ or ▼ to select **Your Phone Number**, then press **OK**. You see the phone number input screen.

   Your Phone Number

2. Use the numeric keypad to enter your phone number (up to 20 digits).
3. When you're done, press **OK** to return to the **Your Phone Number** screen.
4. Press **Menu** to exit the Fax Settings menu.

Using the Keypad to Enter Numbers and Characters

When entering phone numbers and text in Fax mode, follow these guidelines:

- To enter a fax number, use the numeric keypad. Press **Redial/Pause** to insert a pause symbol (-) when a pause is required during dialing. Use the **#** button to insert the + symbol when entering an international phone number.
- To move the cursor, add a space, or delete a character:
  - ◀ or ▶ Move the cursor to the left or right.
  - **Auto Answer** Inserts a space and moves the cursor right.
  - **Speed Dial/Group Dial** Deletes a character and moves the cursor left.
- To enter characters, press a keypad button repeatedly to switch between uppercase, lowercase, or numbers. Press **1** to enter special characters.

Selecting the Number of Rings to Answer

If you connected an answer machine and set it to pick up on the fourth ring, you should set the WorkForce 520/525 Series to pick up on the fifth ring or later.

1. Press the **Fax** button, then press **Menu**.
2. Press ▲ or ▼ to select **Fax Settings**, then press **OK**.
3. Press ▲ or ▼ to select **Communication**, then press **OK**.
4. Press ▲ or ▼ to select **Rings to Answer**, then press **OK**.
5. Press ▲ or ▼ or use the numeric keypad to select the number of rings, then press **OK**. Select more rings than you use for the answering machine.
6. Press **Menu** to exit the Fax Settings menu.

Sending a Fax From the Control Panel

You can send a fax by manually entering a fax number, as described below.

Note:
To dial the number using a telephone, by redialing, or by selecting from your speed dial list, see the next section. To send a fax from your computer using the Epson FAX Utility, see your online *User's Guide*.

1. Place your original(s) for faxing (see page 28).
2. Press the **Fax** button.

   Fax 12:30 AM

3. Use the numeric keypad to manually enter the fax number. You can enter up to 64 digits.
4. To change fax settings, press **Menu** and select settings as necessary.
5. Press the **B&W** or **Color** button to send your fax.

Note:
If the recipient's fax machine prints only in black and white, your fax is automatically sent in black and white even if you select color.

- If you are scanning with the Automatic Document Feeder, your document is automatically scanned and faxed.
- If you placed your document on the scanner glass, you see this screen after the first page is scanned:

  Add another page?
  1 Yes 2 No

  If you need to fax additional pages, place your original on the scanner glass or in the Automatic Document Feeder. Then press **1** to continue. If you do not need to fax another page, press **2**. Your document is faxed.
- If the fax number is busy, you see a redialing message and the product redials after one minute. To redial immediately, press **Redial/Pause**.

To cancel faxing, press **Stop/Clear Settings** at any time.

Other Ways to Dial a Fax Number

Here are some other ways you can dial a fax number:

- **Redial/Pause** Redial the last fax number you used.
- **Speed Dial/Group Dial** Select or type the number of the speed dial/group dial entry and press **OK**. Press **1** to enter another entry or press **2** to continue.

Prayer to St. Joseph over 1900 years old

O St. Joseph whose protection is so great, so strong, so prompt before the Throne of God, I place in you all my interests and desires. O St. Joseph do assist me by your powerful intercession and obtain for me from your Divine Son all spiritual blessings through Jesus Christ, Our Lord; so that having engaged here below your Heavenly power I may offer my Thanksgiving and Homage to the most Loving of Fathers. O St. Joseph, I never weary contemplating you and Jesus asleep in your arms. I dare not approach while He reposes near your heart. Press him in my name and kiss His fine Head for me, and ask Him to return the Kiss when I draw my dying breath. St. Joseph, Patron of departing souls, pray for us. Amen

Say for nine consecutive mornings for anything you may desire. It has seldom been known to fail.

This prayer was found in the fiftieth year of Our Lord Jesus Christ. In 1500's it was sent by the Pope to Emperor Charles when he was going into battle.

Whoever reads this prayer or hears it or carries it, will never die a sudden death, nor be drowned, nor will poison take effect on them. They will not fall into the hands of the enemy nor be burned in any fire, nor will they be defeated in battle.

Make this prayer known everywhere.

SECTION 9 ELIGIBILITY REQUIREMENTS (CONTINUED)

After entry into the IDR plan, you must annually certify your family size and provide income documentation so that your loan holder may adjust your payment amount to reflect more recent income information. Your new payment amount may be higher or lower, depending on the income documentation and family size information you provide each year. Your loan holder will notify you when you are required to provide this documentation.

If you do not provide updated income documentation annually by the deadline provided by your loan holder(s), your payment amount will be calculated based on a 10-year standard repayment plan using the loan balance at the time you entered repayment under the IDR repayment plan.

Under the IDR plan, your monthly payment may be less than the monthly accruing interest. The accruing interest that is not satisfied by your monthly payment will be capitalized annually. You will receive a notice telling you when the interest will be capitalized, and you will have the opportunity to pay that interest before it is capitalized. While your remaining IDR, the amount of interest that is capitalized will be limited to 10 percent of the outstanding principal balance on your loans at the time that you entered repayment.

Under the IDR plan, if you are unable to find work and for other periods when you have met the equivalent of 25 years of qualifying monthly payments and of those 25 years have elapsed, any remaining debt will be forgiven. If you qualify for an Economic Hardship Deferment, any months of Economic Hardship Deferment are considered the equivalent of qualifying payments. Months for which you receive any other type of deferment or months of forbearance are not counted as qualifying payments, and do not count toward the 25-year forgiveness period. Any amount forgiven under the IDR plan may be considered income by the federal Revenue Service and subject to unpaid income tax. The Public Service Loan Forgiveness Program allows eligible borrowers to cancel the remaining balances of their Direct Loans after they have served full terms of a public service organization for at least 10 years, while making IDR qualifying loan payments, including payments under the IDR plan. For more information, see studentaid.gov/idr/pslf.

IMPORTANT INFORMATION ABOUT ALTERNATIVE DOCUMENTATION OF INCOME

YOU ARE REQUIRED to provide alternative documentation of your income if:

- You did not file a federal tax return for the either of the two most recently completed tax years; or
- You have been notified by your loan holder(s) that alternative documentation of your income is required.

YOU MAY provide alternative documentation of your income if your Adjusted Gross Income (AGI), as reported on your most recently filed federal tax return, does not reasonably reflect your current income, because, for example, the loss of or change in employment, layoff or your spouse.

YOU ARE NOT REQUIRED to provide alternative documentation of your income if you can provide a copy of your most recently filed federal tax return or an IRS tax return transcript, the either of the two most recently completed tax years, and that income is also reasonably reflects your current income.

SECTION 10 WHERE TO SEND THE COMPLETED REPAYMENT PLAN REQUEST

TEST DESCRIPTION

Detects PD-L1 Expression by Immunohistochemistry (IHC)

TEST RESULT

PD-L1 Score	Result
TPS	Positive

COMMENT

Based on formalin-fixed paraffin-embedded tumor tissue specimen, the PD-L1 (SP142) Assay, Ventana Medical Systems, Inc. is an FDA approved companion diagnostic assay for selection of patients for treatment with anti-PD-L1 antibody therapy. Positive PD-L1 staining is defined as ≥ 5% tumor cells (TC) and/or tumor infiltrating immune cells (IC) expressing PD-L1 as detected by the VENTANA PD-L1 (SP142) Assay. Negative PD-L1 staining is defined as < 5% tumor cells (TC) and/or tumor infiltrating immune cells (IC) expressing PD-L1 as detected by the VENTANA PD-L1 (SP142) Assay.

SOURCE

Formalin-fixed paraffin-embedded tissue.

CLINICAL INFORMATION

PD-L1 is a cell surface protein that binds to PD-1 and B7.1 receptors on activated T cells, B cells, and other immune cells. PD-L1 binding to PD-1 and B7.1 receptors on T cells results in inhibition of T cell activation and cytokine release. PD-L1 is also expressed on many human cancers and is thought to play a role in tumor immune evasion. Therapeutic antibodies that block the PD-L1 interaction with PD-1 and B7.1 receptors have been developed to restore T cell activity against tumors.

Solid Tumors

PD-L1 [illegible] cell-type restricted immunohistochemistry [illegible] tumors and normal tissues and [illegible] tumor microenvironment.

Non Small Cell Lung Cancer (NSCLC):

Strong expression of PD-L1 in NSCLC tumor cells and/or tumor infiltrating immune cells is a prognostic factor associated with poor survival. Expression of PD-L1 in NSCLC is among the PD-(L)1 axis drivers that have shown promise of anti-tumor activity. The [illegible] and [illegible] PD-L1 expression [illegible] in clinical oncology trials in NSCLC.

Melanoma

PD-L1 [illegible] expression is associated with poor survival in melanoma patients. Early trials targeting the PD-1 axis with monoclonal antibodies in melanoma have shown durable, objective responses and [illegible] PD-1 axis inhibitors in melanoma is under clinical investigation.
